Questions

For questions or to request detailed training from an analyst please contact:
AttachmentAnalyst@doa.virginia.gov.
Please reference the attachment number in the subject line of the email.

Data entry

Only cells highlighted in yellow allow for data entry. Error messages in cells are intended to alert preparers that established parameters are not being followed. **Failure to correct Errors or provide answers to all required questions prior to submission will prohibit acceptance of the attachment. Selected cells requiring a response will be populated with an “Answer Required” message until a response is entered.**

Submission requirements

Contact DOA if the Component Unit has any problems with the files.

After downloading the file, rename the spreadsheet file using the entity’s acronym. For example, the Virginia Resources Authority should rename its Attachment CU4.xlsx* file as VRAAttCU4.xlsx*. **If the entity does not have a well known acronym** then spell the entire name of the entity followed by AttCU4. For example, Virginia Outdoors Foundation may rename its Attachment CU4.xlsx* file as VirginiaOutdoorsFoundation AttCU4.xlsx*.

Note: Remember to submit audited financial statements when available.

Submission requirements
(continued)

Submit the Excel spreadsheet electronically to finrept-cu@doa.virginia.gov.

Please include the Entity's Acronym and Attachment number in the **subject line** of the submission e-mail.

Copy APA via e-mail to APAFinRept@apa.virginia.gov.

Do not submit paper copies of this spreadsheet.

For your convenience, it is only necessary to enter the contact information on the first tab. The contact information is linked to the remaining tabs; however, the contact information in the remaining tabs may be overwritten if necessary.

*Note: The attachment is in the Excel 2007 version (.xlsx). If the entity has an earlier version of Excel, the file can be saved in the earlier version (.xls). If the entity has problems opening the file, DOA can provide the attachment saved in an earlier version of Excel (.xls).

Certification

The **Certification** tab requires all preparers and reviewers to type their name on this form. Please note that there should be a segregation of duties; therefore, the preparer and the reviewer should not be the same individual for any tab. **By typing a name, the preparer is certifying that all of the questions have been completed and are accurate; the reviewer is certifying that the attachment has been reviewed and is complete and accurate; the preparer and reviewer were not the same individual for any tab; and the preparer and reviewer have read and understood the instructions for the attachment. If entity staffing does not allow for a different preparer and reviewer, please contact DOA.**

**Attachment
revisions**

If attachment revisions are made subsequent to DOA acknowledgement of receipt and acceptance of the original attachment submission, **resubmit the revised attachment AND complete the [Revision Control Log](#) tab in the attachment excel file.**

Enter the revision date, row number and column letter revised, and the previous and revised information. Document text changes and numerical changes. Only enter changes for amounts actually keyed. For example, if a non-keyed, calculated total changes as a result of the revision, this does not need to be documented on the Revision Control Log.

If the attachment is revised more than once, do not delete control log revision information from the previous revision. Enter the new revision date and the additional revisions in the rows following the initial revision rows. This log should document all revisions from the initial attachment submission.

Include “**REVISED – date**” in the **subject line** of the submission e-mail as well as in the **file name**. Resubmit the revised attachment; and ensure that the [Revision Control Log](#) tab has been completed.

Each time a revision is submitted the [Certification](#) tab should be updated with new signatures and dates.

**General
information**

1. The template includes numerous features, including automated comments and validation messages, to assist in the preparation and review of financial data.
 2. Detailed line items for cash, cash equivalents, and investments are included in the template. This will give DOA the detail needed for **GASBS No. 40** as amended by **GASBS No. 59**, *Financial Instruments Omnibus*, requirements. Refer to the instructions in Appendix 1 at the end of this document for guidance on completing these tabs (tabs 1A, 1B, & 1C).

General information *(continued)*

3. **Tab 1B – Cash Eq. & Inv. Not w Tr** is not password protected so that entities may add additional rows when needed without having to contact DOA or may copy and paste information into the sheet from their own records. In adding rows or copying information, care must be taken to preserve the existing spreadsheet layout and column and row labels. If rows are added, please also copy the “TYPE” and “INVESTMENT” descriptions at columns A and B and the formulas at columns N and P. Nonnegotiable CDs should **not** be included on this tab, they should be included on **Tab 1A - Detail**.
4. When completing **Tab 3 – Capital Assets**, refer to the **Authoritative Literature/Guidance for Preparation of GAAP Basis Fund Financial Statement Templates**, and **GASBS No. 51 Frequently Asked Questions**, on DOA’s website at www.doa.virginia.gov for additional information.
5. Ensure that all of the footnote tabs applicable to the data entered on the statements are completed.

For additional information refer to the **Authoritative Literature/Guidance for Preparation of GAAP Basis Fund Financial Statement Templates**, which can be found on DOA’s website at www.doa.virginia.gov by clicking on the “Financial Statement Directives” link.

6. If a template amount has a footnote number reference, the corresponding spreadsheet tab must be completed.

General information *(continued)*

7. **GASBS No. 68**, *Accounting and Financial Reporting for Pensions*, **GASBS No. 69**, *Government Combinations and Disposals of Government Operations*, and **GASBS No. 71**, *Pension Transition for Contributions Made Subsequent to the Measurement Date* effective starting fiscal year 2015. Due to implementation of these GASBS, **Tab 8 – Miscellaneous** was modified with the following changes:
 - Part 15 has been revised to incorporate **GASBS Nos. 68, 69, and 71**.
 - Part 17 has been added to this tab to incorporate **GASBS No. 69**.

 8. A fluctuation analysis for the component unit template comparing the current and prior year's financial statement template activity requires explanation. Significant variances must be explained. The fiscal year 2014 amounts will automatically populate when the component unit entity selects its name from the drop-down list on the **Component Unit Template** tab. If a "yes" displays in the column titled "Is a fluctuation explanation required?", additional information is needed. For information regarding **Preparation of Fluctuation Analyses**, refer to page 18 of this directive. **If you provide audited financial statements the fluctuation analysis does not have to be completed.**

 9. Provide explanations for the fluctuation analysis in a Microsoft Word document and submit with the template. In your explanations provide the underlying reasons (i.e. management decision, trend, event) for the change, do not just state the item increased or that the item increased because another item decreased.

Recommended It is recommended that each entity obtain copies of **GASBS No. 3**, **GASBS No. 40**, the most current Comprehensive Implementation Guide issued by GASB in 2013, and **GASBS No. 59** for better understanding of this attachment. For additional information regarding GASB Statements, refer to the GASB website at www.gasb.org.

Definitions

Cash – the standard medium of exchange (paper currency) that must be readily available for the payment of current obligations, and it must be free from any contractual restriction that limits its use in satisfying debts.

Cash Equivalents – instruments or investments of such high liquidity (original maturity of 90 days or less) and low risk that they are virtually as good as cash. Examples are a nonnegotiable certificate of deposit, money market fund, Treasury bill, monies in the State Non-Arbitrage Program (SNAP) and Local Government Investment Pool (LGIP). Whether an asset is a cash equivalent is determined only once based on the length of the original maturity when the asset is first acquired.

Investments – securities and other assets acquired primarily for the purpose of obtaining income or profit with an original maturity greater than 90 days. This includes securities, which are transferable financial instruments that evidence ownership or creditorship.

Security – generally, an instrument evidencing debt of or equity in a common enterprise in which a person invests on the expectation of financial gain. The term includes notes, stocks, bonds, debentures or other forms of negotiable and non-negotiable evidences of indebtedness or ownership.

Note: For investments that are derivatives, entities must provide additional footnote disclosures in a separate communication. Otherwise, entities will apply the disclosure requirements for investments set forth in **GASBS No. 40**, *Deposits and Investment Risk Disclosures*.

11a	Provide an explanation if the sum of Unrestricted/Restricted Cash Equivalents Not held with the Treasurer of Virginia (excludes SNAP) and Unrestricted/Restricted SNAP Individual Portfolio - Cash Equivalents on the Tab 1A - Detail tab Part 7 is greater than the sum of Less Than 1 year on Tab 1B - Cash Eq. & Inv. Not w Tr. tab.
11b	Provide an explanation if a Nonnegotiable CD is Not reported as Unrestricted or Restricted Cash Equivalents Not held with the Treasurer of Virginia on the Tab 1A - Detail tab Part 7.
11c	The information on Tab 1B - Cash Eq. & Inv. Not w Tr. tab should agree to the entity's individually published financial statements. Any differences must be explained.
12	List the total fair value of cash equivalent/investment not held with the Treasurer of Virginia and SNAP Individual Portfolio amounts subject to foreign exchange risk. Foreign exchange risk is the risk of an investment's value changing due to changes in currency exchange rates and/or the risk that an investor will have to close out a long or short position in a foreign currency at a loss due to adverse movements in exchange rates. This amount must equal the total of the fair value amount in the Tab 1C - Foreign Currency Inv tab of the spreadsheet.
13	Are any of the entity's cash equivalents or investments not with the Treasurer of Virginia and SNAP Individual Portfolio amounts in debt securities highly sensitive to interest rate changes? Some examples of these include a variable-rate investment with a multiplier, or a variable-rate investment with a coupon that varies inversely with a benchmark index. For further explanations of highly sensitive investments, refer to the Comprehensive Implementation Guide – Guides updated through June 30, 2013 issued by GASB. If the entity marked a "Yes," the entity will need to provide an explanation as to why these investments are considered highly sensitive.

Appendix 1, Schedule of Cash, Cash Equivalents, and Investments, Continued

**Directions for
Tab 1B - Cash
Eq. & Inv. Not
w Tr tab**

According to **GASBS No. 40** as amended by **GASBS No. 59**, entities that have cash equivalents and investments not with the Treasurer of Virginia and/or SNAP Individual Portfolio investments will need to report more detailed information about the risk of their cash equivalents and investments. This spreadsheet requests the necessary information DOA needs to properly report in the CAFR.

The **Tab 1B - Cash Eq. & Inv. Not w Tr** tab is not password-protected so that entities may add additional rows when needed without having to contact DOA or copy and paste information into the sheet from their own records. In adding rows or copying information, care must be taken to preserve the existing spreadsheet layout and column and row labels. If rows are added, please also copy the “TYPE” and “INVESTMENT” descriptions at columns A and B and the formulas at columns N and P.

List cash equivalent or investment by type and issuer:

In prior years, entity’s had to provide information by type of cash equivalent or investment. While DOA is continuing to request this information, DOA will also need each issuer (further broken by each issue) for most cash equivalent and investment types. This information is needed to satisfy the concentration of credit risk for **GASBS No. 40**. DOA is also requesting any applicable ticker symbol and CUSIP number for each issue. (The ticker symbol and CUSIP number are needed to help DOA in sorting all the issuers to ensure there is no one issuer greater than 5% of net position or plan net position for any particular fund.)

Note: Ginnie Mae, EXIMBANK, and SBA are the only asset-backed securities that should be included with U.S. Treasury and Agency Securities. This is because they are explicitly backed by the U.S. Government. Securities such as those issued by the Federal National Mortgage Association (FNMA or Fannie Mae), Student Loan Marketing Corporation (Sallie Mae), and the Federal Farm Credit Banks are NOT explicitly backed by the U.S. Government and should not be included in U.S. Treasury and Agency Securities.

Attachment CU4 – Instructions
Financial Statement Template (FST)

Appendix 1, Schedule of Cash, Cash Equivalents, and Investments, Continued

Directions for Tab 1 - Cash Eq. & Inv. Not w Tr tab, continued

Note: Care should be taken when identifying securities as asset-backed. Only securities that are collateralized by other assets, such as mortgage or other consumer loans, should be categorized as asset-backed. Although entities such as Fannie Mae and Freddie Mac (Federal Home Loan Mortgage Corporation or FHLMC) issue many asset-backed securities, they also issue unsecured debt in the form of bonds and notes. These unsecured debt issues should be listed in the “Agency Unsecured Bonds and Notes” section of the **Tab 1B - Cash Eq. & Inv. Not w Tr** tab and **NOT** in the “Asset-Backed Securities” section.

Example: For the cash equivalent or investment type “Common and Preferred Stocks,” the entity would list each issuer such as General Electric Corp. The entity would also list their ticker symbol “GE”. Because it is an equity security, no credit quality rating would need to be given. The entity would then classify the custodial rate risk for this security.

Credit Quality Rating (AAA, BB, Unrated, etc.):

List the applicable credit quality rating. The credit quality ratings of cash equivalents and investments in debt securities (corporate bonds, corporate notes, etc) as described by nationally recognized statistical rating organizations (rating agencies) must be disclosed.

Obligations of the U.S. government or obligations **explicitly** guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. Nonnegotiable certificates of deposit are also exempt from credit quality ratings. Repurchase agreements are exempt from credit quality ratings **only** if the underlying security is explicitly guaranteed by the U.S. government. The credit quality ratings of external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities should be disclosed. **If a credit quality disclosure is required and the investment is unrated or not rated by any rating agencies, the disclosure should indicate the fact that the investment is Unrated. Under no circumstance, should the rating information for any investment be left blank.**

DOA's rating drop-down list in the **Tab 1B - Cash Eq. & Inv. Not w Tr** tab provides standardized symbols for commonly used ratings of Standard & Poor's, Moody's and Fitch's. Entities may also refer to these three rating agencies' websites for explanations of the ratings and the standardized rating symbols. Once a rating agency is selected for the investment, the list of rating symbols that may be selected in the next column is restricted to only valid ratings symbols for that rating agency. If there is no rating agency for the investment, "N/A" may be selected for both the rating agency and the rating.

Interest rate risk (i.e. maturity) of each cash equivalent and investment:

The interest rate risk of debt investments must be disclosed by investment type and amount. DOA has selected the segmented time distribution method as outlined in **GASBS No. 40**. This requirement will require the entities provide, by amount and issuer, the maturity of their debt investments.

GASBS No. 40 does not require separate disclosure for cash equivalents and investments. Therefore, cash equivalent and investment amounts should be listed in one of the investment column maturities (less than 1 year, 1-5 years, 6-10 years, greater than 10 years) depending on the investment securities that have maturities. Most equity type investments do not have a maturity and their total would only be reported in the "category 3" and/or "uncategorized" columns in the custodial credit risk section.

Negotiable certificates of deposit should be classified as cash equivalents or investments depending on the original maturity. Negotiable instruments are securities that are normally sold in \$1 million units and that can be traded in a secondary market. **Nonnegotiable certificates of deposit** should always be reported as cash equivalents in the “Less than 1 Year” column. Nonnegotiable instruments are time deposits that are placed by depositors directly with financial institutions and that are generally subject to a penalty if redeemed before maturity.

Custodial credit risk:

Per **GASBS No. 40**, the requirement to disclose cash equivalents and investments as categories 1 and 2 is no longer necessary. These amounts should be reported in the uncategorized column. If the security, however, meets the following criteria, the security must still be reported as Category 3.

- Uninsured,
- Not registered in the name of the government, and
- Are held by either the counterparty or the counterparty’s trust department or agent

Note: Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. Securities underlying reverse repurchase agreements are not exposed because they are held by the buyer-lender.

List the total custodial credit risk that is considered category 3 and the amount that is uncategorized (remaining amount) for each issuer. For debt securities, the total of these two columns should equal the sum of the interest rate risk columns mentioned above or an error message will appear. Equity securities (common, preferred stock, index funds, equity index and pooled funds, and real estate) will not have a maturity, and their total would only be reported in the custodial credit risk section.

Appendix 2 – Impairment of Capital Assets

**Directions for
Tab 9 –
Imprmnt. of
Cap Assets tab**

Instructions: Part 1

This part is to identify potential impairments as follows:

A) **Possible Impairment of Capital Assets:** As of June 30, 2015, did the entity have an event* or change in circumstances* that may indicate an impairment of a capital asset as described in **GASBS No. 42**? If **yes**, provide a description, month/year it took place, the possible impaired capital assets, and then go to B. If **no**, go to Part 6 of **Tab 8 – Miscellaneous** and provide a description, the amount, and the financial statement line item if applicable.

***Note:** This must be a prominent event or circumstance that is conspicuous or known to the entity. It is expected to have been discussed by management, or media. Common indicators of impairment include the following:

- Physical damage (i.e., fire, flood)
- Enactment or approval of laws/regulations or other changes in environmental factors
- Technological development or evidence of obsolescence
- Change in the manner or expected duration of a capital asset
- Construction stoppages (i.e., lack of funding)

B) **Impairment Test:** If **yes** to A, is the decline in service utility of the capital asset significant **and** unexpected? If **yes**, go to C. If **no**, go to Part 6 of **Tab 8 - Miscellaneous** and provide a description, the amount, and the financial statement line item if applicable.

Note: If this test indicates an impairment has not occurred, the estimated useful life and salvage value may need to be reevaluated and changed. This should be accounted for on a prospective basis.

C) **Permanent Impairment:** If **yes** to A and B, is the impairment considered permanent? If **yes**, go to D. If **no**, go to Part 2.

Note: Generally, an impairment should be considered permanent; however, in some cases it may be considered temporary. If it is considered temporary, the capital asset should not be written down. See **GASBS No. 42** for additional guidance.

Instructions: Part 1, continued

- D) **Financial Statement Reporting & Footnote Disclosure:** If **yes** to A, B, and C, has the impairment loss and related insurance recoveries (if applicable) been properly reported on the financial statement in accordance with **GASBS No. 42**? If **no**, provide an explanation, then go to part 2. If **yes**, provide the impairment loss, insurance recoveries, and financial statement line item this activity is reported on.

Note: For **impaired capital assets that will continue to be used by the entity**, the impairment loss that should be written off should be measured by one of the following methods: restoration cost approach, service units approach, or deflated depreciation replacement cost approach. For **impaired capital assets that will no longer be used by the entity or capital assets impaired from construction stoppage**, they should be reported at the lower of carrying value or fair value.

Loss on capital assets that became permanently impaired during fiscal year 2015 must be reported as program expenses – loss on sale/disposal/impairment of capital assets, extraordinary item, or special item. If the impairment loss took place in prior years and not previously recognized, beginning net position should be restated. Use professional judgment to determine the appropriate financial statement line item.

Also, per **GASBS No. 42** paragraph 21, if insurance recoveries are in the same year as the impairment loss, the impairment loss should be reported net of the associated insurance recovery. Also, **GASBS No. 42** paragraph 17 - footnote 6 provides guidance for insured impairments that result in an accounting gain.

Part 2, Idle Capital Assets – Temporarily or Permanently Impaired

Any permanently and/or temporarily impaired capital assets that are idle as of year-end must be disclosed. Provide the carrying amount of any permanently and/or temporarily impaired capital assets as of year-end.

Part 6, Tab 8 – Miscellaneous

Answer “Yes” or “No” whether the entity recognized any insurance recoveries during the fiscal year, not already reported in Part 1D of **Tab 9 – Imprmnt of cap assets**. If yes, for any insurance recoveries that are not reported in Part 1D of **Tab 9 – Imprmnt of cap assets**, provide a description, the amount, and the financial statement line item in Part 6 of **Tab 8 - Miscellaneous**.

Note: This includes current year insurance recoveries for capital assets impaired in prior years. It also includes all other insurance recoveries. (i.e., recoveries for embezzlement of cash, theft). Insurance recoveries should be reported as program revenue-operating grants & contributions or extraordinary item. Use professional judgment to determine the appropriate line item as outlined in **GASBS No. 42**.
