Overview

Introduction FAACS requires a standard asset classification procedure to determine the useful life for similar assets. To distinguish asset codes needed for the Fixed Asset Accounting and Control System (FAACS) from other State or agency codes, FAACS codes are designated as **Asset Nomenclature Codes**.

When using the nomenclature code table, please note that a *useful life that is within 20%* of that specified by the relevant nomenclature code may be entered in an asset’s master file record.

Nomenclature Code Structure A nomenclature code is an 11-character numeric code, required for each asset entered in FAACS. The code is structured as follows:

Federal Cost Category The first two digits indicate the federal cost category under which the capital asset falls. This code is used for indirect cost calculations and other related purposes.

Asset Category The third digit indicates the major asset class under which the capital asset is assigned. The asset category is used for edit purposes and to aggregate assets into one of the five asset classes reported in the Commonwealth’s Comprehensive Annual Financial Report.

Asset categories are

- Land,
- Buildings,
- Infrastructure,
- Equipment, and
- Construction-In-Progress — **Nomenclature code not required**

Major Nomenclature The next six digits indicate the major asset grouping under which the capital asset falls. These codes are assigned in sequential order by the Department of Accounts (DOA).

Overview, Continued

Minor Nomenclature The last two digits are reserved for agency classifications requiring greater detail than in the major nomenclature. **These codes are entered into FAACS by DOA FAACS personnel.**

Alphabetical Listing/Numerical Order: Nomenclature Code Listing

View Nomenclature Table The Nomenclature Table can be accessed in FAACS by clicking the “*View Tables*” menu button and selecting the “*Nomenclature Table*” from the dropdown listing. The user then has the option of viewing the Nomenclature Table sorted in alphabetical or numerical order. See page 4 for an example of the Nomenclature Table sorted in alphabetical order and page 5 for an example of the numerical sort. Contact the Department of Accounts if you have questions or need help in viewing the Nomenclature Table in FAACS.
