Cardinal Security Handbook

Each agency is established as a Business Unit in Cardinal and each user in Cardinal is assigned a Row Level Security permission list. This permission list determines the Business Units that the user can access. The purpose of Row Level Security is to prevent users from being able to modify or view data for other agencies. A user can only view, enter, or process transactions for Business Units included in their Row Level Security permission list.

Cardinal users need to be assigned the appropriate roles and security settings in the Cardinal System to have access to do their jobs. This Cardinal Security Handbook is designed to help agencies determine the correct roles for Cardinal users.

Cardinal Security Officers (CSO)

The Cardinal Security Officers listed on the Department of Account (DOA) Authorized Signatories Form (DA-04-121) have been granted authority to authorize the Cardinal Security Team to add, update and delete users in Cardinal that are both preparers and approvers of transactions in Cardinal. By approving a transaction in Cardinal, the agency, department or institution, and its employees and agents, agree to the certifications contained in the Commonwealth Accounting Policy and Procedure Manual for the applicable transaction.

Cardinal Security Form

The Cardinal Security Form must be completed by the applicable agency's Cardinal Security Officer (CSO). The form should include required signatures prior to submitting to the Cardinal Security Team, in order for access to be granted to Cardinal.

The Cardinal Security Form can be found in the Statewide Toolbox tab on the Cardinal website using the following path:

Statewide Toolbox > Cardinal Security > Cardinal Security Form (SE-SW-001)

Use this form to:

- Assign users to roles within Cardinal
- Update existing Cardinal user information
- Lock out users no longer requiring access to Cardinal

Submit the completed form to the Cardinal Security Mailbox at: cardinal.security@doa.virginia.gov

Cardinal User Roles

Use the Cardinal Security Handbook as a reference when completing the Cardinal Security form. It defines Cardinal roles by functional area.

You will find the following information in the handbook regarding Cardinal roles:

- Role descriptions
- Segregation of duties
- Other role considerations

Cardinal Project Cardinal Security Handbook

Segregation of Duties Policy Exceptions:

Several combinations of Cardinal security roles have been noted as potential segregation of duty (SOD) conflicts in this handbook. As a general rule, SOD role combinations will not be granted to Cardinal users. Exceptions can be requested for agencies where limited staffing is available or special circumstances exist. Before submitting a completed security form to the Cardinal Security Team with an SOD role combination conflict, the agency should complete the following steps.

- Submit a written request to DOA's Director of General Accounting (email: gacct@doa.virginia.gov) that includes:
 - Exception requested
 - Justification for the exception
 - Description of the internal control implemented by the agency to mitigate the lack of segregation of duties
 - Approval (signature) from Agency Head
 - Users' Cardinal Security Form (SE-SW-001)

DOA will notify the agency in writing if the exception is granted. Upon approval, submit the following to Cardinal Security:

Submit the completed Cardinal Security form (flagged as SOD Exception) and sign under the DOA's Director of General Accounting signature line (Email: cardinal.security@doa.virginia.gov).

Accounts Payable User Roles

Accounts Payable (AP) is the main source of all non-payroll payment information for a financial entity. Cardinal AP includes the following processes:

- Establish and Maintain Vendors
- Enter and Process Vouchers
- Expense Processing
- Process Payments
- Process 1099

About this Section

This section outlines the available roles for AP in Cardinal. Use the AP User Roles and Descriptions Table below to determine the appropriate AP roles needed by agency users in Cardinal.

The AP User Roles & Descriptions Table provides the following information:

- Role Descriptions
- Segregation of Duties
- Other Role Considerations

AP User Roles & Descriptions Table

Descriptive Role Name	Role Description	Separation of Duties	Other Role Considerations
Vendor Conversation Processor V_AP_COVA_VENDOR_CONVERSATION	This role is for users routinely involved in the Vendor Procure to Pay process who have a need to interact with vendors. This role has access to: <ul style="list-style-type: none"> • Record Vendor Conversations 	N/A	N/A
Voucher Processor V_AP_COVA_VOUCHER_PROCESSOR	This role has access to: <ul style="list-style-type: none"> • Enter and maintain vouchers • Review voucher accounting entries • Delete vouchers 	Should not be given to a user with the Voucher Approver or Final Voucher Approver roles.	N/A

**Cardinal Project
Cardinal Security Handbook**

Descriptive Role Name	Role Description	Separation of Duties	Other Role Considerations
Special Voucher Processor V_AP_COVA_SPEC_VCHR_PROCESSOR	This role has access to everything the Voucher Processor has. In addition, this role has access to: <ul style="list-style-type: none"> • Manually schedule payments • Record manual payments • Update vouchers with payment offsets (liens, garnishments) • Close vouchers • Place holds on vouchers 	Should not be given to a user with the Voucher Approver or Final Voucher Approver roles.	This role is the only role who is able to update/correct Scheduled Due Date when the 00PP pay term is used.
Voucher Approver V_AP_COVA_VOUCHER_APPROVER	This role has access to: <ul style="list-style-type: none"> • Approve vouchers 	Should not be given to a user with the Final Voucher Approver, Voucher Processor, Petty Cash Processor or Special Voucher Processor roles.	N/A
Final Voucher Approver V_AP_COVA_VCHR_FINAL_APPROVER	This role has access to: <ul style="list-style-type: none"> • Approve vouchers Note: There must be a user with the Voucher Approver level role for the Final Voucher Approver level role to be used. This is an option for a 2nd level of agency voucher approval.	Should not be given to a user with the Voucher Approver, Voucher Processor, Petty Cash Processor or Special Voucher Processor roles.	N/A
Voucher Upload Error Reporter V_AP_COVA_VCHR_ERROR_REPORTER	This role provides access to view and execute the voucher upload error report. Note: This report can contain sensitive data, so this role should only	N/A	This role is only available for interfacing agencies.

**Cardinal Project

Descriptive Role Name	Role Description	Separation of Duties	Other Role Considerations
Secure Payment Reporter V_AP_COVA_SECURE_PMNT_REPORTER	This role has access to: <ul style="list-style-type: none"> • Run payment reports containing sensitive data • Run Payment History by Vendor, Payment History by Bank, Payment History by Payment, and Trial Register reports 	N/A	N/A
Petty Cash Processor V_AP_COVA_PETTY_CASH_PROCESSOR	This role has access to: <ul style="list-style-type: none"> • Create petty cash checks via express pay page 	Should not be given to a user with the Voucher Approver or Final Voucher Approver roles.	N/A
Payment Cash Configurator V_AP_COVA_PYMNT_CASH_CONFIG	This role has access to: <ul style="list-style-type: none"> • Set payment priorities for specific vouchers, expense reports, and/or cash advances via cash checking transaction priority page 	N/A	N/A
WF System Administrator V_COVA_WF_WL_REASSIGN	This role has access to: <ul style="list-style-type: none"> • Move worklist items from one User to another. • Set the Alternate User ID to which future transactions will flow. 	Should not be given to a user with approval access to Vouchers and Journals.	This role should be assigned to one User and one backup per agency.

Accounts Payable Workflow

About this Section

Workflow is an automated process that takes a Cardinal transaction and routes it to the next approver level for action (approve or deny).

Expenses Workflow

The Expense Approver role is routed based on Department IDs. Read on to learn more about the Expense Approver role and workflow routing for this role.

The following Expense role(s) are tied to workflow:

- Expense Approver

Because the Expense Approver role deals with the approval of expenses, as a general rule, only employees can be mapped to this role. Non-employees should not typically be mapped to this role. When an expense transaction is entered for an employee, the person who is identified as their supervisor in their Cardinal expense profile will be the first level of approval. This is not necessarily their operational supervisor, as not all employees have user ids in Cardinal.

Employees who are mapped to the Expense Approver role may need to be assigned to an Expense Approver route profile in order to properly route expense related workflow transactions according to their position / role.

Please use the information provided below to select the appropriate Expense Approver workflow profile for your users in Cardinal and list the department ID ranges for which the user will approve. Please keep in mind, a user can only be assigned to one of the expense approver profiles listed below, and only one user can be established per profile/department range combination.

Expense Approver Profile	Profile Description
Fiscal Officer	Approval of all expense reports, travel authorizations, and cash advances. This approval level is optional for online agencies.
Agency Head	Approval of expense reports and travel authorizations containing expense amounts over the allowable amount and/or over \$500. Interfacing agencies will not have the Agency Head approval level in Cardinal.

Voucher Workflow

Users mapped to the following role will be assigned the agency specific route control profile(s) in order to properly route transactions for approval. Route control profiles are assigned to users to identify the areas on which they work.

- Voucher Approver or Final Voucher Approver

If the user is mapped to the Voucher Approver or Final Voucher Approver role, agencies will need to identify the Business Unit number(s) for which that user can perform approvals. Please note, the Final Voucher Approver role is only applicable to agencies that have previously selected two levels of voucher approval.

Accounts Receivable User Roles

Accounts Receivable (AR) is the functional area that handles a series of accounting transactions dealing with funds receipts. Cardinal AR includes the following process:

- Enter Funds Receipts

About this Section

This section outlines the available roles for AR in Cardinal. Use the AR User Roles & Descriptions Table below to determine the appropriate AR roles needed by agency users in Cardinal.

The AR User Roles & Descriptions Table provides the following information:

- Role Descriptions
- Segregation of Duties
- Other Role Considerations

AR User Roles & Descriptions Table

Descriptive Role Name	Role Description	Separation of Duties	Other Role Considerations
Funds Receipt Processor V_AR_COVA_FUNDS_REC_PROCESSOR	This role has access to: <ul style="list-style-type: none"> • Enter deposits for miscellaneous payments • Enter direct journal accounting entries for deposits 	N/A	N/A
Funds Receipt Manager V_AR_COVA_FUNDS_REC_MANAGER	This role has access to everything the Funds Receipts Processor role has. In addition, this role has access to: <ul style="list-style-type: none"> • Review and Complete direct journal accounting entries • Budget Check journal entries online • Group and approve deposits with a custom deposit certificate for submission to CARS and the Dept. of Treasury. 	N/A	N/A

General Ledger User Roles

General Ledger (GL) is the functional area that handles the set of financial accounts used to: accumulate the results of transaction processing, create budgets, generate financial statements and provide source financial data for reporting purposes. Cardinal GL includes the following processes:

- System Setup and ChartFields
- Create and Process Budget Journals
- Create and Process Journals
- Period Close

About this Section

This section outlines the available roles for GL in Cardinal. Use the GL User Roles & Descriptions Table below to determine the appropriate GL roles needed by agency users in Cardinal.

The GL User Roles & Descriptions Table provides the following information:

- Role Descriptions
- Segregation of Duties
- Other Role Considerations

GL User Roles & Descriptions Table

General Ledger Workflow

About this Section

Workflow is an automated process that takes a Cardinal transaction and routes it to the next approver level to approve or deny. The GL Journal Approver is tied to workflow.

Users mapped to the following role will be assigned the agency specific route control profile(s), to properly route transactions for approval. Route control profiles are assigned to users to identify the areas on which they work.

- Journal Approver

If the user is mapped to the Journal Approver role, agencies will need to enter the Business Unit number(s) for which that user can perform approvals.

Additional User Roles

The additional roles that follow relate to reporting, queries and PeopleSoft user system setup. These are default roles that all Cardinal users will receive.

About this Section

This section outlines additional roles in Cardinal. Please use the Additional User Roles & Descriptions Table below to understand the roles all Cardinal users will receive.

The Additional User Roles & Descriptions Table provides the following information:

- Role Descriptions
- Segregation of Duties
- Other Role Considerations

Cardinal PeopleSoft User V_COVA_PEOPLESOFT_USER	This role has access to: <ul style="list-style-type: none"> • Run public queries deemed to be exclusive of sensitive data 	N/A	N/A

Appendix

Statewide Central Roles

The roles listed here are ones that exist within the Cardinal system, but are only available to select agencies/operations. These organizations include: Department of Accounts (DOA), Department of Treasury, Commonwealth Vendor Group (CVG), and others as noted. Any request to assign a Statewide Central Role requires approval from a designated Cardinal DOA Approver (or specific designee noted in the table that follows).

About this Section

This section outlines central roles in Cardinal. Please use the Statewide Central Roles & Descriptions Table below to understand the roles in Cardinal that will be controlled by central departments.

The Additional User Roles & Descriptions Table provides the following information:

- Role Descriptions
- Restrictions
- Other Role Considerations
