Volume No. 1—Policies and Procedures	TOPIC NO 31005—Cardinal
Section No. 31000—Reporting	TOPIC Transactions and Year-End
	DATE July 2022

Overview

Introduction The purpose of this topic is to provide guidance in the analysis, handling, documenting, and ultimate processing of capital asset transactions through the Fixed Asset Accounting and Control System (FAACS) to ensure accuracy of data and propriety of classification. This is necessary to meet reporting requirements established by the Commonwealth, Federal grantor agencies and generally accepted accounting principles.

Cardinal Entries FAACS interfaces with Cardinal daily. Each month, FAACS generates entries to record asset depreciation activity in Cardinal.

Policy

General The Annual Comprehensive Financial Report (ACFR) of the Commonwealth is prepared and presented in conformity with generally-accepted accounting principles. Accordingly, capital asset and related depreciation information are included in the ACFR.

Volume No. 1—Policies and Procedures	TOPIC NO 31005—Cardinal
Section No. 31000—Reporting	TOPIC Transactions and Year-End

Procedures

General

Although detailed transactional procedures are contained throughout all of the topics included in the capital asset accounting function of the manual, a few are highlighted in this topic to focus agency management's attention on these areas. The detailed procedures for entering transactions into FAACS are found in CAPP Topic No. 70325, *Data Entry*.

Agency records supporting capital asset transactions should contain payment information, acquisition date, cost, vendor, asset description and location, responsible person or position, method of acquisition and fund used to acquire the asset, physical identification number and the date and method of disposition. Agency records must be maintained in an orderly manner and be available for the Auditor of Public Accounts reviews.

Transfers from State agencies are recorded in Cardinal by processing a voucher/receipt to record the revenue and expenditure transactions related to the asset transfer. A payment is processed in the Accounts Payable Module (AP) by the paying agency and receipt is recorded in the Accounts Receivable Module (AR) by the recipient agency. When these types of transactions occur, processing steps are similar to standard AP vouchers or AR deposits (see CAPP Topic No. 20310, *Expenditures* and Topic No. 20205, *Deposits*). The agency purchasing the item records the charge to the appropriate Cardinal account for the capital asset. The selling agency records the asset as a disposal in FAACS by using code T (transfer) and indicates in the description field to who transferred. The purchasing agency enters the asset in FAACS and uses the description fields to indicate the selling agency. Note: If there is no cash payment between agencies, the entry is only made in FAACS.

All **land and building “add” transactions** entered into FAACS should reference the appropriate tract I.D. number to control real estate information contained in the COVA Trax System maintained by the Department of General Services (DGS). Refer to CAPP Topic No. 30310, *Asset Categorization*.

Other Funds: A separate schedule should be prepared for all proprietary, trust and agency and higher education funds to show total acquisition cost and associated accumulated depreciation totals for each major asset category. See CAPP Topic 30310, *Asset Categorization*. A separate schedule should be prepared for **all**

fund types showing changes in capital asset balances from year-to-year accounting for the two major components of change (additions and dispositions), plus or minus any other material changes (e.g., revaluations, restatements, etc.)

Agency management is responsible for accurate and timely **reporting** of the necessary capital asset activity comprising its overall reporting requirements to federal grantor agencies. General federal requirements are contained in the Uniform Guidance and specific requirements are contained in grant agreements. See CAPP Topic No. 20605, *Federal Grants Management*, for further detail.

Management Review: Agency management is responsible for reviewing capital assets under their stewardship to ensure that proper action is taken to identify materially overstated assets and write them down to net realizable value for reporting purposes.

FAACS
Transaction
Samples

To understand the processing of capital asset transactions, the following sample illustrations are encountered by central FAACS users. The samples illustrate a typical processing cycle through the life of an asset for each major asset category.

Date	Step	Action
July 15, 20XX	1	Equipment (A) is purchased for \$5,000, useful life 5 years (60 months), no salvage value.
July 17, 20XX	2	A parcel of land is purchased for \$15,000.
July 18, 20XX	3	Completed construction of a new building (A). Accumulated costs associated with the building are currently recorded in construction in progress \$275,000, estimated useful life 45 years, salvage value \$5,000.
July 18, 20XX	4	During an inventory a piece of equipment (B) purchased for \$6,000 in December of 20XX was discovered as not recorded in FAACS. Estimated useful life from date of acquisition is 5 years (60 months), salvage value \$600.
July 19, 20XX	5	Paved a gravel parking lot owned by the agency at a cost of \$10,000. Its estimated useful life is 8 years with no salvage value.

FAACS will automatically calculate the monthly depreciation expense for the above assets (except land). Depreciation begins with the month of acquisition (e.g., assets purchased on the 20th of the month will be charged with a complete month of depreciation).

The following amounts will be charged to each asset's accumulated depreciation account for the month of July. Depreciation is calculated by subtracting the salvage value from acquisition cost and dividing by the useful life in months.

(e.g., Equipment (A) acquisition cost	\$5,000
Less: Salvage value	<u>0</u>
Depreciable cost	5,000
Divided by Useful life (in months)	<u>÷ 60</u>
	<u>\$83.33</u>

	<u>\$777.50</u>

Date	Step	Action
August 10, 20XX	6	A capital project begins for constructing a new building with an estimated cost of \$175,000, and estimated at 15 months to complete.
August 15, 20XX	7	Equipment (C) is purchased for \$3,000, and incurs an additional \$200 start-up cost, useful life 3 years, salvage value \$100.
August 17, 20XX	8	Equipment (D) is purchased for \$750 useful life 3 years, no salvage value.
August 20, 20XX	9	Acquisition value of Equipment (B) (transaction 4) should have been \$13,000. The agency must change the acquisition amount by using the appropriate on-line screen for a change (see Topic No. 70325— <i>Data Entry</i>) which will result in reversing the original entry and reestablishing a new acquisition value.
August 21, 20XX	10	Agency enters into an installment purchase agreement to acquire a new piece of machinery (E) at a cost of \$8,000 which is financed at 6% over three years or three annual payments of \$2,993. Machinery has a useful life of 8 years and no salvage value.

Date	Step	Action
September 5, 20XX	11	The agency disposes of equipment A to a private company for \$4,850.
September 10, 20XX	12	The agency enters into a contract with the federal government. The agency purchases a piece of equipment (F) with 100% federal funds and the agency retains title to the asset. Equipment cost \$6,000; useful life, 3 years; no salvage value.
September 12, 20XX	13	Also another piece of equipment is purchased with State and federal funds, 60% State, 40% Federal. Cost of Equipment (G) \$10,000; salvage value, \$1,000; 6 years useful life.
September 15, 20XX	14	A parcel of land (B) is donated to the agency. The agency hires external appraisers and the appraiser values the land at \$12,000.
September 18, 20XX	15	The agency decides it no longer needs Equipment (D) and sells the piece of equipment to another State agency for \$575.

Internal Control

General

Each agency and institution should implement cost-beneficial internal control procedures to ensure that:

- All changes to capital assets are reviewed for reasonableness.
- All reporting requirements set in the Comptroller's annual financial statement directive are met.
- All federal reporting requirements are met.
- Procedures exist to ensure depreciation on federally funded assets is excluded for indirect cost recovery.
- All amounts reported on financial statements are fully reconciled to FAACS and Cardinal.

Records Retention

General

Records should be maintained for a period of at least three years or longer, if necessary, to be in compliance with policies established by the Records Management Section, The Library of Virginia. The retention period generally starts at the close of the fiscal period.

For pending, ongoing or unresolved litigation, audits or claims, retain documentation until completion, resolution or negotiation of settlements and retain according to standard schedules. Provide for the periodic destruction of records not subject to permanent deposit in accordance with policies and procedures established by the Records Management Section, Virginia State Library and Archives.
