Overview

Introduction

Direct Deposit (also known as EFT, Electronic Funds Transfer) of payroll allows employees to have their pay electronically deposited to their savings accounts, checking account(s) or any debit/pay card that will accept electronic deposits. The program is a convenient way to pay employees at any Federal Reserve affiliated financial institution worldwide. Direct deposit is the primary method of paying Commonwealth employees. All state employees are eligible to participate in the direct deposit program regardless of their frequency of pay and/or salaried or wage status. That is, salaried or wage employees paid monthly, semi-monthly, biweekly, and weekly may all participate in the program.

Benefits to Employees and Employers

Direct deposit benefits both the employee and the employer. Benefits to the employee include:

- No lost or stolen checks.
- No unclaimed or uncashed checks.
- Eliminates long banking lines and wasted time cashing checks.
- Assurance that payments will be automatically deposited while on vacation, sick leave, or out of town.

Financial institution service fees vary, but generally, direct deposit fees are lower than the cost of paper transactions. Direct Deposit reduces operating costs and improves productivity. Other benefits to the employer include:

- Reduced processing time and requirements for check reconciliation.
- Enhanced cash management by increasing predictability of cash flows.
- Elimination of forged, stolen, or lost checks.

Continued on next page
Direct Deposit as a Condition of New Hire or Rehire

4-601.e.2 of the Appropriation Act (Chapter 879, 2008 Session) authorizes the Comptroller to mandate payment of wages or salaries to state employee via electronic payments. The first step toward implementing this mandate is the requirement that all newly hired or rehired employees to the Commonwealth receive their net pay via an electronic deposit. This applies to all employees with a hire date of August 1, 2008, or after, paid either centrally or by a decentralized higher education institution. Wage employees are included in this mandate.

Global Exceptions to Mandate

Listed below are the only global exceptions to the direct deposit mandate. Some agencies have obtained agency specific exceptions due to a unique population of employees or work conditions. Exceptions other than those listed must be requested in writing to the Director or Assistant Director of State Payroll Operations. Agencies are required to document all exceptions granted or may be subject to a $5 per compliance monitoring check charge as permitted by § 4-5.04g of Chapter 847.

- Wage employees who are unbanked and will only be employed one or two pay cycles.
- Employees under the age of 18 cannot apply for the paycard nor open a bank account without a co-owner and therefore can be excepted until they reach the age of 18.
- Employees switching financial institutions can receive a pay check for one to two periods while establishing a new account.
- Direct deposit, including the paycard, cannot be enforced for those employees without a SSN and can be excepted until the SSN is obtained.
- Third party checks for miscellaneous deductions, taxes, garnishments, etc. are not included in the mandate as CIPPS does not have the capability of creating electronic transmissions of those payments.
- Federal Work Study students are exempted from the mandate due to 34 CFR 675.16 which specifically prohibits employers from requiring FWS students to participate in direct deposit.
Overview, Continued

Agency Specific Mandatory Direct Deposit Policy

At this time DOA does not mandate Statewide direct deposit for existing employees. However, effective August 1, 2008, individual agencies will be allowed and are encouraged to invoke a mandatory direct deposit policy. Any policy developed by an agency that does not provide for a 100% mandate should be soundly documented to include rationale for excluding certain groups of employees (either by employment type or location, etc.). Similarly, any exception granted to a “mandated group” should be documented for reasonableness of employment practices.

Statewide Mandate for Opt Out of Printed Earnings Notices

Effective January 1, 2009, all employees who have access to state-issued computers and internet access will be required to use Payline and to opt out of earnings notice print. Agencies can implement this mandate by either making a global election for their employees or requiring their employees to access Payline and make the appropriate elections in the user’s security record (Personal Options page) for themselves. Agency global elections to eliminate earnings notice print can be applied systematically to salary-only employees, hourly-only employees, or all employees.

Note: An employee does not have to have an individual computer assigned in order to be considered as having access. An employee is considered to have access if the agency provides for a kiosk in an employee lounge or public area and where employees of higher education institutions have access to libraries or computer centers.

Virginia Debit MasterCard

While direct deposit of payroll has been available since the early 1980s, not all employees maintain bank accounts. Therefore, a small percentage of “unbanked” employees still receive their earnings in the form of a paper check. In conjunction with the Department of Treasury, the Department of Accounts began a program to allow State employee payrolls to be deposited to a Debit MasterCard or “Pay Card” called the EPPICard. This electronic payment option is ideal for those employees age 18 or over who currently receive a pay check or even those on direct deposit who wish to have a portion of their pay set aside on the pay card each pay day.

Note: As the EPPICard must be produced and mailed to the employee, the direct deposit deduction for this deposit will undergo a two pay period pre-note process.
Overview, Continued

**Virginia Debit MasterCard Procedures**

Agencies may distribute information about the Pay Card to employees by either directing the employee to the internet address or printing from the website and distributing the information. The internet address is [https://www.eppicard.com](https://www.eppicard.com) (then click on the card labeled Virginia). All of the program details including the enrollment form can be found by clicking on “Program Material” and then “For Commonwealth Employees.”

Employees that opt to participate will complete the enrollment form and return it to their payroll office. The completed form should then be faxed to the Department of Accounts (DOA) for further processing. DOA will enter the information into the MasterCard system to establish the employee’s account. DOA will enter ONLY the banking information into CIPPS. Upon completion DOA will notify the agency that the banking information has been entered. (It is advised that the payroll office not establish the direct deposit deduction until they are notified by the employee that the EPPICard has been received. At that time, the automatic prenote can be overridden by changing the last position of the utility field to zero.)

*The agency should capture the bank and account routing numbers by making screen prints of the direct deposit screen. Attach the screen print to the original enrollment form and file in the employees payroll/personnel file. The bank and account routing numbers on H0BB1 should not be provided to the employee for use for any other purpose other than the paycard.*

Note: For newly hired employees, please do not fax the completed enrollment form to DOA until the employee record has been created in CIPPS.

**No Fixed DD if No Net DD**

No employee is allowed to utilize fixed direct deposit deductions unless the employee is also having his net pay direct deposited as well. Each employee must identify a financial institution where the net pay will be deposited or cannot avail themselves of the convenience of the fixed direct deposit.

Note: Employees waiting for receipt of the EPPICard are considered as participation in net direct deposit even though a physical check must be produced in the interim.

Overview, Continued

Promoting Direct Deposit

To increase participation, agencies are encouraged to promote the direct deposit program. Agencies with low participation rates are reported in Comptroller’s Quarterly Report. To obtain promotional materials and other pertinent information, see www.directdeposit.org or call NACHA @ 1-800-487-9180.

Rules Affecting Direct Deposit

State and Federal authorities share regulatory responsibility over direct deposit. Title IX of the Consumer Credit Protection Act and the Electronic Fund Transfers Act outline the basic requirements for Electronic Funds Transfers (EFT’s) including direct deposit. The Federal Reserve Board’s Regulation E explains and implements these laws.

Direct Deposit Administration

Central Direct Deposit Administration

Direct deposit transactions are processed through the Automated Clearing House (ACH). DOA administers the program for agencies centrally by:

- Serving as the main contact for agencies using direct deposit and assisting in immediate problem resolution.
- Creating transmission files containing banking information for each direct deposit participant.
- Processing Notifications of Change (employee account changes).
- Correcting errors and ACH Returns.

Agency Responsibilities

Agencies play a very important role in the initial employee direct deposit set-up process. Accurate direct deposit set-up is critical to the successful transfer of funds. Agencies:

- Collect employee banking information on the direct deposit enrollment form.
- Verify banking information with the selected financial institutions.
- Establish bank account information on H0BB1 and deductions on H0ZDC.
- Ensure that the link between the bank and bank account information on H0BB1 and the direct deposit payroll deduction H0ZDC are correct.
- Maintain copies of employee direct deposit enrollment applications.

Operational Participants

As shown in the following illustration, five participants are involved in the administration of the direct deposit process. Each plays an important role in completing the process successfully.

![Direct Deposit Administration Diagram]

Originator Responsibilities

In the Commonwealth of Virginia, originator responsibilities are divided as follows:

<table>
<thead>
<tr>
<th>Responsible Party</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency</td>
<td>Collects and verifies banking information.</td>
</tr>
<tr>
<td></td>
<td>Sets-up information in CIPPS.</td>

ODFI
SunTrust Bank is currently under contract by the Commonwealth as the Originating Depository Financial Institution. DOA sends payment information electronically to the bank where the data file is warehoused and subsequently forwarded to the ACH operator two days before the effective payment date.

ACH Operator
The Federal Reserve Bank is the state's designated ACH Operator. The Federal Reserve is the central clearing facility that sorts all transactions by bank and releases payments no later than the opening of the business day that funds are scheduled to be available. The Federal Reserve sends the electronic transmission to the RDFI for final credit to employee accounts. If all information sent to the RDFI is correct, no further action is taken. If the information is incorrect, Notifications of Change and ACH Returns are sent back to the ODFI.

RDFI
Receiving Depository Financial Institutions are employees’ financial institutions that receive ACH entries for final distribution to accounts designated by their customer employees.

Employee/Receiver
Employee/receivers are the payees who authorize their paychecks to be direct deposited to their financial institution and chosen bank account. The employee is responsible for notifying the payroll office of any changes in bank account information.

Forms
Employee Direct Deposit Authorization Forms are available on-line at the DOA website http://www.doa.virginia.gov/Payroll/Forms/Payroll_Forms_Main.cfm.

<td>Checking accounts that have no balance at the close-of-business day.</td>
</tr>
</tbody>
</table>
Bank Routing Numbers

Routing numbers identify in numeric form the location at which the check, electronic transaction or payment must be presented for payment. In simple terms it is the bank address in numbers. The routing number is sometimes called the transit or American Bankers Association (ABA) number.

Routing Numbers use a nine-digit machine readable or magnetic ink character recognition (MCIR) format. Routing numbers are usually the first group of numbers at the bottom of the check. The digits are grouped as follows:

<table>
<thead>
<tr>
<th>Digit</th>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-4</td>
<td>Federal Reserve Routing Symbol</td>
</tr>
<tr>
<td>5-8</td>
<td>Identifies the institution</td>
</tr>
<tr>
<td>9</td>
<td>Check symbol</td>
</tr>
</tbody>
</table>

Key To Routing Numbers

Larger banks may have several assigned routing numbers depending on their location. Routing numbers for credit unions and savings and loans start with the number 2. Depository banks start with 0 followed by a number from 1 to 9. Any bank routing number can be added to the CIPPS database, which is accessible only by DOA. If an agency attempts to enter a bank routing number that is not in the database, it will reject with a fatal error. This can be easily corrected by calling a direct deposit coordinator in DOA Payroll Production.

Account Numbers

Account numbers are the second group of numbers at the bottom of the check. Account numbers can have as many as 17 digits and are unique to each employee. Dashes and spaces are not a part of account numbers and should not be entered in CIPPS as part of the direct deposit account information.

Check Numbers

Check numbers are the last group of numbers at the bottom of the check. They are easier to identify because they are also shown on the top right hand corner of the check. Check numbers should not be included when entering account information in CIPPS.
Pre-Notes

Introduction

Pre-notes are zero-dollar payment amounts sent through the ACH network. Pre-notes allow the RDFI to verify the accuracy of the bank account information in order to prevent direct deposit disbursements to incorrect bank accounts. Pre-notes contain the same information as live direct deposits with the exception of the amount.

CIPPS no longer generates a pre-note with the exception of the EPPIcard. When invoked, the CIPPS pre-note counter, pre-note date (on H0BB1), and Utility field on H0ZDC work together to control the schedule for conversion from “pre-note” to “live” direct deposit.

Bank Information – Initial Set-up and/or Changes

Agencies must enter the current pay period end date as the Pre-note Date on H0BB1 when bank information is initially set-up or changed. This date will remain in the system until the next payroll certification is requested for the employee’s frequency. Upon certification, CIPPS automatically overlays the Pre-note Date entered (i.e., pay period end date) and records the date of the certification request.
ACH Processing and Returns

ACH Cycle

Following agency payroll certification, the direct deposit cycle starts and DOA assumes direct deposit processing responsibilities. Agency involvement ceases unless DOA must contact the agency pursuant to receipt of a Notification of Change. A high-level summary of DOA’s ACH processing schedule follows:

<table>
<thead>
<tr>
<th>Timeframe</th>
<th>Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Day 1 - During nightly certification payrun.</td>
<td>All CIPPS data entry files are processed. ACH reports and transmission files are created.</td>
</tr>
<tr>
<td>Day 2 - Morning following certification payrun.</td>
<td>DOA receives all reports and transmission data for final review and releases transmission files to the ODFI.</td>
</tr>
<tr>
<td>Day 2 - Afternoon following certification payrun.</td>
<td>ODFI confirms ACH transmission and warehouses the information until two (2) days before the effective payment date.</td>
</tr>
</tbody>
</table>

Returns

DOA receives NOCs and ACH Returns online from the ODFI. Pertinent information is downloaded for immediate corrective action. Standard change codes are assigned by the RDFI for NOC or ACH Returns designating the reason the ACH transaction rejected. Returns are categorized as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>C0</td>
<td>Partial rejection – these transactions can be, and usually are, manually posted by the RDFI with a possibility of a one-day delay in posting to the employee’s account.</td>
</tr>
<tr>
<td>R0</td>
<td>Total rejection – these transactions are returned within 72 hours to DOA.</td>
</tr>
</tbody>
</table>

Continued on next page
ACH Processing and Returns, Continued

Corrective Action

Descriptions of selected standard reject codes and the actions taken by DOA to correct these errors follows:

<table>
<thead>
<tr>
<th>Reject code</th>
<th>Description</th>
<th>Action Taken by DOA</th>
</tr>
</thead>
<tbody>
<tr>

Employee Banking Information, H0BB1

After receiving the direct deposit enrollment form and verifying the banking information, agencies must enter the employee’s banking information on H0BB1 and the payroll deduction on H0ZDC. Access the employee’s H0BB1 screen using routine CIPPS command line navigation.

Note: Due to the required DOA actions to establish an EPPICard account, DOA will complete this screen for pay card entries.
CIPPS Direct Deposit Set-up, Continued

Company

Employee Number
Name

Display when employee’s screen is accessed from the Command line.

Bank

Bank Routing Number – Each employee can use up to ten (10) different banks in these 9-digit fields. Routing numbers are usually the first group of numbers at the bottom of the check. See detailed definition in the bank routing number section and H0ZDC Utility field guidelines for linking requirements. (Note: Bank 9 is reserved for EPPICard banking information and Bank 10 is reserved for the VSELP banking information.)

ACCOUNT

Employee Bank Account Number – Each employee can use up to 10 different bank account numbers in these 17-digit fields. Account numbers are the second group of numbers at the bottom of the check and are unique to each employee. Do not enter dashes/spaces. Each bank account entered must be valid with the Bank designated on the same line. See detailed definition in the bank routing number section and H0ZDC Utility field guidelines for linking requirements. (Note: VSELP values must be the account (loan) number preceded by 5200.)

Prenote Date

Enter the last day of the current pay period applicable to the employee’s pay frequency. Enter this date upon initial set-up or whenever changes are made to the bank information.

Note: This date will always change to the first pay certification date following data entry (for initial set-up or changes).
CIPPS Direct Deposit Set-up, Continued

Employee Deductions, H0ZDC

After the bank and account information has been entered on H0BB1, employee direct deposit payroll deductions must be established on H0ZDC. Even if the banking information on the H0BB1 is entered, the direct deposit will not be successful unless the deduction is set-up on H0ZDC. Access the employee’s H0ZDC screen using routine CIPPS Command line navigation.

Company, Employee Number, Name
No

Enter the applicable deduction number.

Note: Only deductions 169 and 170 are permissible for direct deposit net pay.
CIPPS Direct Deposit Set-up, Continued

Name
This field is displayed by the system when the screen is complete and the Enter key is pressed.

Amt/Pct
Amount/Percent – Enter the dollar amount (to two decimal places) for fixed, and 100% (to five decimal places – entered as 1.00000) for net direct deposit deductions.

Goal
Used only for VSELP. Enter the total repayment amount from the chart on the form that corresponds to the per pay period amount.

Utility
If a percentage (net) direct deposit, enter a value of two (2) in the first position of the utility field. For all direct deposit deductions, enter the applicable values in the 9th and 10th positions of the Utility field to reference the bank set established on the H0BB1 screen. For example, bank set #2 would be ‘02’. For VSELP only: In positions 6 – 7 enter the number of payments to be made (06 for semi-monthly; 12 for monthly). This value will decrement by 1 each time a deduction is calculated. In position 8 enter a ‘1’ to decrement the goal value.

CALC
Do not use.

FR
Deduction Frequency - Enter the value indicating which payment(s) within each month the direct deposit should process.

<table>
<thead>
<tr>
<th>Value</th>
<th>Use for…</th>
<th>Direct deposit processed for…</th>
</tr>
</thead>
<tbody>
<tr>
<td>09</td>
<td>Fixed or Net</td>
<td>All payments.</td>
</tr>
<tr>
<td>01</td>
<td>Only Fixed</td>
<td>First payment within the calendar month.</td>
</tr>
<tr>
<td>02</td>
<td>Only Fixed</td>
<td>Second payment within the calendar month.</td>
</tr>
</tbody>
</table>

PRTY
Do not enter information.

START DATE (OPTIONAL)
Enter the beginning date for the deduction. Enter as MM/DD/YYYY. The deduction will begin during the first payroll period when the date is less than the CTL period end date.

END DATE (OPTIONAL)
Enter the cut-off date for this deduction. Enter as MM/DD/YYYY. The deduction will end during the payroll period when the date is less than the CTL periods begin date.

DED MTD
Do not enter. Automatically updates each time the deduction is taken.

DED YTD
Do not enter.
CIPPS Direct Deposit Reports

Reports

Agencies must verify the following reports after the initial set-up of the direct deposit account(s).

<table>
<thead>
<tr>
<th>Report</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Report 26, Direct Deposit Transmission Report</td>
<td>Hard copy of the online transmission file sent to the ODFI. Lists the employee name and employee number, banking information, type of transaction and trace number.</td>
</tr>
</tbody>
</table>

Exception Processing

Stop Payments

*Direct deposits affected by overpayments caused by agency error, unanticipated leave without pay, notification of employee death or employees changing accounts after payroll certification may need to be recalled or reclaimed using stop payment procedures.*

The timing of a request for stop payment of a direct deposit affects the ability to intercept the funds prior to distribution. To aid in your understanding of how timing affects the stop payment, some general guidelines are provided.

- Requests received by DOA by 3:30 PM will be processed the same day. Those received after 3:30 will not be processed until the following workday.
- Requests received the day after certification and up to three (3) State business days prior to the check-date (deposit date) will be deleted from the transmission. That is, the initial transaction is never transferred to the Receiving Financial Institution (RDFI).
- Requests received after that time and up to five (5) business days after the date of deposit will be processed as a reversal. The initial transaction cannot be deleted; therefore, a reversing transaction must be created and remitted to the RDFI. As the funds related to the initial transaction may no longer be available in the employee's account, it is possible that the reversing transaction may be rejected. For that reason, *DOA cannot guarantee the success of the reversal.* Once the reversal has been accepted, DOA will process the corresponding *void* transaction in CIPPS. A void is not complete until it is seen on the Report 10.
Exception Processing

In order to ensure the timely return of the direct deposit credits, please submit your stop payment requests as soon as possible. Guidelines on when to request stop payments due to employee death are provided in CAPP- Cardinal Topic 50515, Special Payments. As an alternative to voiding a direct deposit, direct deposits can be routed to another account, such as another account for the affected employee or an agency petty cash account. However direct deposit transactions cannot be converted to a negotiable instrument (i.e., check).

Note: Paid Manual Payset updates should NOT be used for processing adjustment transactions involving banking deposits, deductions 158 through 170. Contact DOA for assistance.

Stop Payment Documentation

Paperless earnings notices through Payline have reduced the availability of direct deposit earnings notices for inclusion in the stop payment documentation process. Therefore, DOA has streamlined the requirements for direct deposit stop payment. A Direct Deposit Stop Payment form can be found on the DOA website at http://www.doa.virginia.gov/Payroll?Forms?Payroll_Forms_Main.cfm.

To request a stop payment, complete the Direct Deposit Stop Payment form and fax it to the DOA Payroll Production Direct Deposit Coordinator at 804-225-3499 or scan the documents and send them to payroll@doa.virginia.gov. DOA will provide the necessary information to the bank.

Be sure the form includes:

- Employee Name
- Company Number
- Employee Number
- Direct Deposit Number (from Report 10)
- Check Date
- Pay Period End Date
- Reason Code
- Amounts by Direct Deposit Deduction
- Authorizing Signature (must be on Form DA-04-121)
- Desired YQ Indicator
Internal Control

Internal Control

Agencies must ensure direct deposit payments are made to the correct employee bank account.

Records Retention

Time Period

Retain direct deposit enrollment forms until the employee changes accounts and/or 6 years after separation from employment. Retain stop payment requests to DOA and ODFI banks for five and six years respectively.

CARS to Cardinal Transition

CIPPS interfaces to both CARS and Cardinal. No additional action needs to be taken by agencies in order to record CIPPS entries. After CARS has been decommissioned, agencies will no longer use NSSA to establish programmatic data in CIPPS. Instructions on how to load this information to CIPPS will be distributed at a later time.
