### SAS 122 & AU-C 265

Statement on Auditing Standards No. 122, *Statements on Auditing Standards: Clarification and Recodification (SAS 122)* and AU-C 265 *Communicating Internal Control Related Matters Identified in an Audit*, state that the identification by the auditors of a material misstatement, identification of fraud by senior management, and ineffective oversight of an entity's financial reporting are indicators of a material weakness in internal control. This also includes restatements of previously issued financial statements to reflect a correction of a material misstatement. This applies regardless of whether the auditors or the agency discovers the restatement.

**Note:** This does not apply to a change in accounting principle to comply with a new accounting principle or a justifiable voluntary change from one GAAP to another. Entities must ensure controls are in place to avoid material misstatements and/or misclassifications in the attachments and other financial information submitted to DOA.

## Component Unit Year-End Reporting Memorandum – FY 2017, continued

---

### Reason for submission requirements

Financial statements/templates, attachments, and supplemental information are required for the preparation of the Commonwealth's Comprehensive Annual Financial Report (CAFR). Bond rating agencies use the CAFR to determine Virginia's bond rating, and they require that parts of the CAFR are included in bond offering statements. Maintaining an unmodified opinion on the CAFR is critical to Virginia's retention of its AAA bond rating.

---

### Peer review report submissions

The Generally Accepted Government Auditing Standards, commonly known as the Yellow Book, require auditors who are relying on another audit organization's work to request a copy of the audit organization's peer review report.

Those component units that are audited by an audit firm other than the Auditor of Public Accounts should be prepared to **have the auditors provide a copy of the most recent peer review report AND any accompanying letter of comment to the Auditor of Public Accounts.**

---

### No early implementation of GASB statements

For consistency in reporting all entities in the CAFR, the Commonwealth's policy is **no early implementation** of any GASB statement. If an entity early implements any GASB statement in its individually published financial statements, the Attachment CU4 and Financial Statement Templates, **must exclude** the effects of any early implementations.

---

### Thank you

Thank you in advance for assisting to successfully complete the Commonwealth of Virginia's *Comprehensive Annual Financial Report* for fiscal year 2017.

---

## Component Units

### Definition

A component unit is a legally separate organization that is financially accountable to the primary government or has relationships with the primary government such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Commonwealth is required to incorporate the financial data of all component units in its financial statements.

3. **Tab 1B – Cash Eq. & Inv. In adding rows or copying information, care must be taken to preserve the existing spreadsheet layout and column and row labels. If rows are added, please also copy the “TYPE” and “INVESTMENT” descriptions at columns A and B and the formulas at columns N, O, P, V, W, and X. Nonnegotiable CDs should continue to be treated as “deposits” for GASBS 3/40 disclosures and should **not** be included on this tab **but** be included on **Tab 1A - Detail**.
4. When completing **Tab 3 – Capital Assets**, refer to the **Authoritative Literature/Guidance for Preparation of GAAP Basis Fund Financial Statement Templates** on DOA’s website at [www.doa.virginia.gov](http://www.doa.virginia.gov) for additional information.

7. A fluctuation analysis for the component unit template comparing the current and prior year's financial statement template activity requires explanation. Significant variances must be explained. The fiscal year 2016 amounts will automatically populate when the component unit entity selects its name from the drop-down list on the **Component Unit Template** tab. If a "yes" displays in the column titled "Is a fluctuation explanation required?", additional information is needed. For information regarding **Preparation of Fluctuation Analyses**, refer to page 19 of this directive. **If you provide audited financial statements the fluctuation analysis does not have to be completed.**
  
  8. Provide explanations for the fluctuation analysis on the **Template Flux** tab. In your explanations provide the underlying reasons (i.e. management decision, trend, event) for the change, do not just state the item increased or that the item increased because another item decreased.

**Definitions** **Cash** – the standard medium of exchange (paper currency) that must be readily available for the payment of current obligations, and it must be free from any contractual restriction that limits its use in satisfying debts.

**Cash Equivalents** – instruments or investments of such high liquidity (original maturity of 90 days or less) and low risk that they are virtually as good as cash. Examples are a money market fund, Treasury bill, monies in the State Non-Arbitrage Program (SNAP) and Local Government Investment Pool (LGIP). Whether an asset is a cash equivalent is determined only once based on the length of the original maturity when the asset is first acquired.

**Investments** – securities and other assets that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash with an original maturity greater than 90 days. This includes securities, which are transferable financial instruments that evidence ownership or creditorship.

**Note:** The definition of fair value was revised by **GASBS No. 72** as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

**Security** – A transferable financial instrument evidencing debt obligation of, or equity ownership in, a common enterprise. The term includes notes, stocks, bonds, debentures, or other forms of negotiable and non-negotiable instruments that evidence indebtedness or ownership.

**Note:** For investments that are derivatives, entities must provide additional footnote disclosures in a separate communication. Otherwise, entities will apply the disclosure requirements for investments set forth in **GASBS No. 40** and **GASBS No. 72**. DOA may request additional information regarding **GASBS No. 72** in a separate communication.

<b>Part</b>	<b>Instruction</b>
11a	Provide an explanation if the sum of Unrestricted/Restricted Cash Equivalents Not held with the Treasurer of Virginia (excludes SNAP) and Unrestricted/Restricted SNAP Individual Portfolio - Cash Equivalents reported in Part 7a is greater than the sum of Less Than 1 year on <b>Tab 1B - Cash Eq. &amp; Inv. Not w Tr.</b> tab plus Nonnegotiable Certificate of Deposit reported as cash equivalents in Part 2.1 and Part 4.1.
11b	Indicate if nonnegotiable CDs not held with the Treasurer of Virginia are properly reported on the <b>Component Unit Template</b> tab on an applicable cash equivalent, restricted cash equivalent, investment, or restricted investment line item depending on the length of maturity. Provide an explanation if the answer is “no” and DOA may contact the entity for additional information.
11c	The information on <b>Tab 1B - Cash Eq. &amp; Inv. Not w Tr.</b> tab should agree to the entity's individually published financial statements. Any differences must be explained.
12	List the total <b>fair value</b> of cash equivalent/investment not held with the Treasurer of Virginia and SNAP Individual Portfolio amounts subject to foreign exchange risk. Foreign exchange risk is the risk of an investment’s value changing due to changes in currency exchange rates and/or the risk that an investor will have to close out a long or short position in a foreign currency at a loss due to adverse movements in exchange rates. This amount must equal the total of the fair value amount in the <b>Tab 1C - Foreign Currency Inv</b> tab of the spreadsheet.

<b>Part</b>	<b>Instruction</b>
13	<p>Are any of the entity's cash equivalents or investments not with the Treasurer of Virginia and SNAP Individual Portfolio amounts in debt securities highly sensitive to interest rate changes? Some examples of these include a variable-rate investment with a multiplier, or a variable-rate investment with a coupon that varies inversely with a benchmark index. For further explanations of highly sensitive investments, refer to the Implementation Guide No. 2015-1 and 2016-1 issued by GASB.</p> <p>If the entity marked a “Yes,” the entity will need to provide an explanation as to why these investments are considered highly sensitive.</p>
14	<p><b><u>GASBS No. 40</u></b> states it is the entity’s responsibility “to update the custodial credit risk disclosure requirements addressing other common risks of the deposits and investments of state and local governments.” The entity should provide a description of any other type of risk to cash, cash equivalents, and investments not covered elsewhere on this attachment.</p>
15	<p>Submit the entity's investment policy along with this Attachment in the e-mail to <a href="mailto:finrept-cu@doa.virginia.gov">finrept-cu@doa.virginia.gov</a>. This is the investment policy that will officially be on record with the Department of Accounts. If the entity does have cash, cash equivalents, and investments NOT with the Treasurer of Virginia and <b>DOES NOT</b> have an investment policy, the entity should provide an explanation.</p>

**Directions for  
Tab 1B - Cash  
Eq. & Inv. Not  
w Tr tab**

Entities that have cash equivalents and investments not with the Treasurer of Virginia and/or SNAP Individual Portfolio investments will need to report more detailed information about the risk of their cash equivalents and investments. This spreadsheet requests the necessary information DOA needs to properly report in the CAFR to comply with **GASBS No. 40**.

The **Tab 1B - Cash Eq. & Inv. Not w Tr** tab is not password-protected so that entities may add additional rows when needed without having to contact DOA or copy and paste information into the sheet from their own records. In adding rows or copying information, care must be taken to preserve the existing spreadsheet layout and column and row labels. If rows are added, please also copy the “TYPE” and “INVESTMENT” descriptions at columns A and B and the formulas at columns N, O, P, V, W, and X.

**List cash equivalent or investment by type and issuer:**

Sections are provided for common investment types and categories. If a category for a specific investment is not provided, place it in the Other Debt Securities or Other Equities Securities section, as appropriate. Specify the issuer of the investment in the Description field. The individual investment issue must also be identified. For equity investments, the issue is usually identified by a ticker symbol. For debt investments, the issue is identified by a CUSIP number. Entities must provide ticker symbol or CUSIP number information for all investments. This information is needed in order to satisfy the concentration of credit risk disclosure requirement of **GASBS No. 40**.

**Note:** Beginning with fiscal year 2017, a new debt security investment category of “Supranational and Non-U.S. Government Bonds and Notes” is added to the **Tab 1B-Cash Equiv. & Inv. Not w Tr**. Investment in debt securities issued by supranational or Non-U.S. governmental entities should be included under this new investment category, as appropriate.

**Note:** Ginnie Mae, EXIMBANK, and SBA are the only asset-backed securities that should be included with U.S. Treasury and Agency Securities. This is because they are explicitly backed by the U.S. Government. Securities such as those issued by the Federal National Mortgage Association (FNMA or Fannie Mae), Student Loan Marketing Corporation (Sallie Mae), and the Federal Farm Credit Banks are NOT explicitly backed by the U.S. Government and should not be included in U.S. Treasury and Agency Securities

**Note:** Care should be taken when identifying securities as asset-backed. Only securities that are collateralized by other assets, such as mortgage or other consumer loans, should be categorized as asset-backed. Although entities such as Fannie Mae and Freddie Mac (Federal Home Loan Mortgage Corporation or FHLMC) issue many asset-backed securities, they also issue unsecured debt in the form of bonds and notes. These unsecured debt issues should be listed in the “Agency Unsecured Bonds and Notes” section of the **Tab 1B - Cash Eq. & Inv. Not w Tr** tab and **NOT** in the “Asset-Backed Securities” section. If there is doubt as to whether a security is asset-backed, this information can be obtained from a variety of sources, including the investment prospectus, the issuer, credit rating agencies, or the financial institution that processed the purchase transaction. For example, a search of the investment by CUSIP number at the website of the credit rating agency, Moody’s, [www.moodys.com](http://www.moodys.com), will indicate whether the debt instrument is unsecured or collateralized by some type of asset.

**Example:** For the cash equivalent or investment type “Common and Preferred Stocks,” the entity would list each issuer such as General Electric Corp. The entity would also list their ticker symbol “GE”. Because it is an equity security, no credit quality rating would need to be given. The entity would then classify the custodial rate risk for this security

**Credit Quality Rating (AAA, BB, NR, etc.):**

List the applicable credit quality rating. The credit quality ratings of cash equivalents and investments in debt securities (corporate bonds, corporate notes, etc) as described by nationally recognized statistical rating organizations (NRSROs) must be disclosed.

Obligations of the U.S. government or obligations **explicitly** guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. Nonnegotiable certificates of deposit are also exempt from credit quality ratings. Repurchase agreements are exempt from credit quality ratings **only** if the underlying security is explicitly guaranteed by the U.S. government. The credit quality ratings of external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities should be disclosed. **If a credit quality disclosure is required and the investment is unrated or a rating of not rated is given by any rating agency, the disclosure should indicate the fact that the investment is Not Rated (NR). Under no circumstance, should the rating information for any investment be left blank.**

DOA’s rating drop-down list in the **Tab 1B - Cash Eq. & Inv. Not w Tr** tab provides standardized symbols for commonly used ratings of Standard & Poor, Moody’s, and Fitch. Entities may also refer to these three rating agencies’ websites for explanations of the ratings and the standardized rating symbols. Once a rating agency is selected for the investment, the list of rating symbols that may be selected in the next column is restricted to only valid ratings symbols for that rating agency. If there is no rating agency for the investment, “N/A” must be selected for both the rating agency and the rating.

**Note:** A new completeness check column is added to **Tab 1B-Cash Eq. & Inv. Not w Tr** tab to ensure both rating agency and credit rating columns are completed as applicable. If either rating agency or credit rating column is not completed, an “Answer Required” message will appear in this column.

**Interest rate risk (i.e. maturity) of each cash equivalent and investment:**

The interest rate risk of debt investments must be disclosed by investment type and amount. DOA has selected the segmented time distribution method as outlined in **GASBS No. 40**. This requirement will require the entities provide, by amount and issuer, the maturity of their debt investments.

**GASBS No. 40** does not require separate disclosure for cash equivalents and investments. Therefore, cash equivalent and investment amounts should be listed in one of the investment column maturities (less than 1 year, 1-5 years, 6-10 years, greater than 10 years) depending on the investment securities that have maturities. Most equity type investments do not have a maturity and their total would only be reported in the “category 3” and/or “uncategorized” columns in the custodial credit risk section.

**Custodial credit risk:**

Per **GASBS No. 40**, the requirement to disclose cash equivalents and investments as categories 1 and 2 is no longer necessary. These amounts should be reported in the uncategorized column. If the security, however, meets the following criteria, the security must still be reported as Category 3.

- Uninsured,
- Not registered in the name of the government, and
- Are held by either the counterparty or the counterparty's trust department or agent

**Note:** Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. Securities underlying reverse repurchase agreements are not exposed because they are held by the buyer-lender.

List the total custodial credit risk that is considered category 3 and the amount that is uncategorized (remaining amount) for each issuer. For debt securities, the total of these two columns should equal the sum of the interest rate risk columns mentioned above or an error message will appear. Equity securities (common, preferred stock, index funds, equity index and pooled funds, and real estate) will not have a maturity, and their total would only be reported in the custodial credit risk section.

**Total Reported Amount:**

The reported amount column will automatically total from the amounts listed as category 3 and uncategorized in the custodial credit risk columns of the spreadsheet. **An “ERROR” message will appear for debt securities if this amount does not agree to the sum of the interest rate risk (maturity risk) amounts entered.** The overall total of category 3 and uncategorized cash equivalents and investments must agree to the amount reported at Part 7a in the **Tab 1A - Detail** tab of the spreadsheet. If it does not, an “ERROR” message will appear in the **Tab 1A - Detail** tab.

**Reported Amounts at Fair Value:**

**GASBS No. 72**, *Fair Value Measurement and Application*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes inputs of valuation techniques used to determine fair value. There are columns to indicate the level of the fair value hierarchy within which the fair value measurements are categorized (Level 1, Level 2, Level 3), or established using Net Asset Value per Share (or its equivalent) per **GASBS No. 72**.

**Level 1 inputs** are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

**Level 2 inputs** are inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

**Level 3 inputs** are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

**Not applicable to fair value measurement per GASBS No. 72 column:** If the reported amount does not represent the fair value amount measured per **GASBS No. 72**, record the reported amount in the Not applicable to fair value measurement per GASBS No. 72 column. Examples of some items that do not represent fair value amounts measured per **GASBS No. 72** are the items 1a to 1h listed on the **Tab 1D – GASBS 31, 52, 59**.

The total of the four “Fair Value Measurement using (per GASBS No. 72)” columns plus the “Not applicable to fair value measurement per GASBS No. 72” column should agree to the corresponding Reported Amount column. If it does not, then an “Error” message will appear.

**Directions for  
Tab 1C -  
Foreign  
Currency Inv  
tab**

List the **fair value** of **each** cash equivalent/investment types subject to foreign exchange risk. Foreign exchange risk is the risk of an investment’s value changing due to changes in currency exchange rates and/or the risk that an investor will have to close out a long or short position in a foreign currency at a loss due to adverse movements in exchange rates. The total amount must agree to Part 12 in the **Tab 1A - Detail** tab.

For the listed cash equivalent/investment or deposit amounts subject to foreign exchange risk, GASBS No. 40 requires disclosure of investment policy related to foreign currency deposit or investment. Briefly explain entity’s investment policy related to foreign currency deposit or investment. In addition, provide a brief explanation if the entity does not have such investment policy.

**Note:** **GASBS No. 72** amended the definitions of fair value and investments and provides guidance regarding the measurement and application of fair value.

**GASBS No. 79** amendments include necessary criteria for an external investment pool to measure for financial reporting purposes all investments at amortized cost. If the external investment pool meets the criteria to report all investments at amortized cost and reports all investments at amortized cost, the pool's participants must also measure their investment in the external investment pool at amortized cost. An example of an external investment pool that is managed in accordance with **GASBS No. 79** is a Local Government Investment Pool (LGIP) managed by the Virginia Department of the Treasury.

**Directions for  
Tab 9 –

**Instructions: Part 1**

This part is to identify potential impairments as follows:

- A) **Possible Impairment of Capital Assets:** As of June 30, did the entity have an event\* or change in circumstances\* that may indicate an impairment of a capital asset as described in **GASBS No. 42**? If **yes**, provide a description, month/year it took place, the possible impaired capital assets, and then go to B. If **no**, go to Part 6 of **Tab 8 – Miscellaneous** and provide a description, the amount, and the financial statement line item if applicable.

**\*Note:** This must be a prominent event or circumstance that is conspicuous or known to the entity. It is expected to have been discussed by management, or media. Common indicators of impairment include the following:

- Physical damage (i.e., fire, flood)
- Enactment or approval of laws/regulations or other changes in environmental factors
- Technological development or evidence of obsolescence
- Change in the manner or expected duration of a capital asset
- Construction stoppages (i.e., lack of funding)

- B) **Impairment Test:** If **yes** to A, is the decline in service utility of the capital asset significant **and** unexpected? If **yes**, go to C. If **no**, go to Part 6 of **Tab 8 - Miscellaneous** and provide a description, the amount, and the financial statement line item if applicable.

**Note:** If this test indicates an impairment has not occurred, the estimated useful life and salvage value may need to be reevaluated and changed. This should be accounted for on a prospective basis.

- C) **Permanent Impairment:** If **yes** to A and B, is the impairment considered permanent? If **yes**, go to D. If **no**, go to Part 2.

**Note:** Generally, an impairment should be considered permanent; however, in some cases it may be considered temporary. If it is considered temporary, the capital asset should not be written down. See **GASBS No. 42** for additional guidance.

D) **Financial Statement Reporting & Footnote Disclosure:** If **yes** to A, B, and C, has the impairment loss and related insurance recoveries (if applicable) been properly reported on the financial statement in accordance with **GASBS No. 42**? If **no**, provide an explanation, then go to part 2. If **yes**, provide the impairment loss, insurance recoveries, and financial statement line item this activity is reported on.

**Note:** For **impaired capital assets that will continue to be used by the entity**, the impairment loss that should be written off should be measured by one of the following methods: restoration cost approach, service units approach, or deflated depreciation replacement cost approach. For **impaired capital assets that will no longer be used by the entity or capital assets impaired from construction stoppage**, they should be reported at the lower of carrying value or fair value.

Loss on capital assets that became permanently impaired during the current fiscal year must be reported as program expenses – loss on sale/disposal/impairment of capital assets, extraordinary item, or special item. If the impairment loss took place in prior years and not previously recognized, beginning net position should be restated. Use professional judgment to determine the appropriate financial statement line item.

Also, per **GASBS No. 42** paragraph 21, if insurance recoveries are in the same year as the impairment loss, the impairment loss should be reported net of the associated insurance recovery. Also, **GASBS No. 42** paragraph 17 - footnote 6 provides guidance for insured impairments that result in an accounting gain.

**Note:** This includes current year insurance recoveries for capital assets impaired in prior years. It also includes all other insurance recoveries. (i.e., recoveries for embezzlement of cash, theft). Insurance recoveries should be reported as program revenue-operating grants & contributions or extraordinary item. For information regarding **Preparation of Fluctuation Analyses**, refer to page 19 of this directive. If you provide audited financial statements the fluctuation analysis does not have to be completed.
5. Provide explanations for the fluctuation analysis on the **Template Flux** tab. In your explanations provide the underlying reasons (i.e., management decision, trend, event) for the change, do not just state the item increased or that the item increased because another item decreased.

---

**Definitions**

**Cash** – The standard medium of exchange (paper currency) that must be readily available for the payment of current obligations, and it must be free from any contractual restriction that limits its use in satisfying debts.

**Cash Equivalents** – Instruments or investments of such high liquidity (original maturity of 90 days or less) and low risk that they are virtually as good as cash. Examples are a money market fund, Treasury bill, monies in the State Non-Arbitrage Program (SNAP) and Local Government Investment Pool (LGIP). Whether an asset is a cash equivalent is determined only once based on the length of the original maturity when the asset is first acquired.

**Investments** – Securities and other assets that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash with an original maturity greater than 90 days. This includes securities, which are transferable financial instruments that evidence ownership or creditorship.

**Security** – A transferable financial instrument evidencing debt obligation of, or equity ownership in, a common enterprise. The term includes notes, stocks, bonds, debentures, or other forms of negotiable and nonnegotiable instruments that evidence indebtedness or ownership.

This tab has been modified to eliminate all the columns that previously requested information pursuant to GASB statements. Accurate completion of this tab is required in order to report footnote information for foundations in the CAFR.

List the fair value of cash equivalents and/or investments not held with the Treasurer of Virginia and SNAP Individual Portfolio (including restricted/unrestricted cash equivalents, investments, and SNAP Individual Portfolio). The amounts (including SNAP Individual Portfolio amounts) should be reported in cash equivalents column if the original maturity is 90 days or less and they should be reported as investments if the original maturity is greater than 90 days, as applicable. “ERROR” messages will appear if amounts do not agree to the cash equivalents and/or investments amounts listed in Part 7 on **Tab 1A – Detail Fdn.** Furthermore, answer whether any amounts reported in cash equivalents and/or investments columns are reported at cost rather than fair value.

**Federal Schedules**

---

**Purpose**

This attachment is used to provide DOA with the Federal Schedules needed to prepare the statewide **Schedule of Expenditures of Federal Awards (SEFA)** for the Single Audit Report.

The Single Audit Report is required for compliance with the Single Audit Act Amendments of 1996 and the **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, located in Title 2 of the Code of Federal Regulations** (Uniform Guidance) at

[https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200\\_main\\_02.tpl](https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl)

**It is imperative that entity personnel thoroughly review the uniform guidance to ensure an understanding of the entity’s specific responsibilities. Entities will also need to ensure that the appropriate federal guidance is applied to each specific federal award. Further, the entity should communicate the applicable requirements to subrecipients.**

This attachment is similar to prior year’s Attachment CU5.

**Applicable  
entities and  
requirements**

If the Auditor of Public Accounts (APA) is the entity's auditor for FY 2017 **AND** if the entity received or disbursed Federal funds in FY 2017, the entity is **REQUIRED TO USE** the templates in the files listed below.

- Template – used to prepare the applicable federal schedules

**Overview of  
federal  
schedules**

All Federal expenditures, **excluding** BABs recorded in Cardinal fund 1302X and expenditures reported on the **RECEIVED FROM NONSTATE** tab, made from funds received directly from the Federal Government and federal expenditures/disbursements reported on all other tabs should be reported on the **SEFA** tab. **This distinction is made because expenditures reported on the RECEIVED FROM NONSTATE tab are classified as “Pass-Through Entity Award Expenditures” in the Statewide report and all other expenditures/disbursements are classified as “Direct Award Expenditures.”**

Federal expenditures and/or disbursements reported on the **SEFA** tab plus the total federal expenditures and/or disbursements reported on the **RECEIVED FROM NONSTATE** tab should equal total federal expenditures for the entity. The individual tabs are discussed below:

1. **RECEIVED FROM STATE** tab – pass-through funds received from other state agencies/institutions should be reported on this tab. **ANY EXPENDITURE MADE FROM THESE FUNDS SHOULD BE INCLUDED ON THE SEFA TAB.**
2. **RECEIVED FROM NONSTATE** tab – pass-through funds received from non state entities (**See definition of non state entities on page 11**) and expenditures made from the funds received should be reported on this tab. **EXPENDITURE AMOUNTS REPORTED ON THE RECEIVED FROM NONSTATE TAB SHOULD NOT BE INCLUDED ON THE SEFA TAB.**
3. **DISBURSED TO STATE** tab – pass-through funds disbursed to other state agencies/institutions should be reported on this tab. **THESE DISBURSEMENTS SHOULD ALSO BE INCLUDED ON THE SEFA TAB.**

5. **SEFA** tab – all expenditures/disbursements made by the entity, **except for expenditures reported on the RECEIVED FROM NONSTATE tab**, should be included on this tab.
6. **FLUCTUATION ANALYSIS** tab – This tab provides a comparison of the prior year's SEFA tab to the current year's SEFA tab to identify any differences by major federal agency and requires an explanation whenever any differences are identified with a “YES” in the “Significant Variance” column.

**Important  
Items-General**

- Use the **cash basis** of accounting.
- All attachment files **are designed so that you only need to fill in the yellow highlighted cells.**
- Enter **whole dollar amounts** in all files to prevent rounding errors.
- **Within the seven tabs of the federal schedules workbook there will be a column labeled with the symbol “@” which will be used to identify Research and Development expenditures.**

**Note: An error message will appear if you attempt to enter anything in this column other than the symbol indicated above. A blank cell indicates Non-R&D federal expenditures.**

- **Build America Bonds (BABs) Fund subsidies recorded in Cardinal fund 1302X are excluded from SEFA reporting per OMB.**
- **All National Science Foundation (NSF) awards should be reported as R&D clusters on the SEFA. Due to the transition period required to expend all previous awards, entities must evaluate all NSF expenditures to determine whether the disbursements require inclusion as an R&D cluster or should be reported separately.**
- **Ensure all federal expenditures are recorded in the proper federal fund in Cardinal or entity general ledger as appropriate. Ensure you have notified General Accounting if you have received BABs and activity is recorded in Cardinal fund 1302X.**
- **If N/A appears in any cell you have keyed, you have entered invalid data and you should recheck what has been keyed. Please do not submit schedules with N/A unless you have discussed it with DOA first.**

Items-Federal

- **It is important to make sure you have checked the [www.cfda.gov](http://www.cfda.gov) website to ensure that all CFDA numbers are valid for the current SEFA. Please pay close attention to CFDA programs that have been deleted or changed to an alternate CFDA number.**
- If the CFDA number is entered and the incorrect Federal Program Name or Federal Program Grantor Name appears on any spreadsheet, **and you have verified the CFDA number is correct by checking the [www.cfda.gov](http://www.cfda.gov) website**, please contact Penny Williams at (804) 225-3804 or email at [penny.williams@doa.virginia.gov](mailto:penny.williams@doa.virginia.gov) for assistance.
- Unknown CFDA numbers are those numbers where the Federal grantor is known but the CFDA number is unknown. You must include the first two digits of the CFDA number. (For example, 10.000 would be used if the Federal Grantor is the U.S. Department of Agriculture, but the CFDA number is unknown.)
- **A column titled “Program Name - Unidentified CFDA Number” is included in each tab in the Federal Schedules.xlsm file. Enter the program name (if known) followed by a dash and then enter the other identifying number (such as the contract number) in this column if N/A appears in the program name column when the actual CFDA number is unknown.**
- **It is now a requirement as stated above to include an identifying number or award identification number if the CFDA is not known.**

**Note: In instances where disbursements were made from inactive CFDA numbers, provide the inactive CFDA number.**

- Do not complete the “Program Name-Unidentified CFDA Number” column when the Program name is already populated on the schedules.
- When changes are made to any schedule, make sure to submit the revised certification, **and if a revision is made to the SEFA tab**, submit a revised reconciliation. Also, please ensure the revision control log is completed for any changes made to the tabs on the federal schedules.xlsm file.
- Ensure you confirm pass-through amounts received or disbursed with the receiving or disbursing agency prior to submission to DOA. The amounts reported by the disbursing or receiving agency should be the same in most cases. Discrepancies should be discussed with DOA prior to submission. Ensure the entity reports the appropriate amounts and the appropriate designation as research/development or non-research/development.

**Note: Please ensure pass-through amounts reported on the SEFA and RECEIVED FROM NONSTATE tabs do not exceed the total direct and/or indirect amounts reported by CFDA number. Amounts provided to subrecipients are now reported on the face of the Final SEFA schedule and pass-through amounts cannot exceed the total of direct and indirect expenditures reported. DOA will contact you if the pass-through amounts exceed the total of direct and indirect costs.**

- **Use the “@” symbol to indicate Research and Development (R&D) expenditures. No symbol is used for non-R&D expenditures.** Running totals are located at the top of each spreadsheet.
- Do not use “-” (dashes) to represent \$0.00. You must use the number “0”.
- Do not place the number “0” on any worksheets that do not contain federal expenditure data.
- Do not leave blank rows between rows of information within the spreadsheets when keying in data.
- Do not use abbreviations or include error messages or pennies on any schedules.
- The Federal Government is **not a non state entity**. **Non state entities** are counties, cities, towns, local governments, local governmental authorities, regional governmental authorities, public or private foundations, institutions, museums, and corporations or similar organizations which are not units of State government or political subdivisions of the Commonwealth as established by general law or special act. **(DO NOT report disbursements to or receipts from the Federal government on the DISBURSED TO NON STATE and/or RECEIVED FROM NON STATE tabs.)** Community service boards and area agencies on aging should be reported as non state agencies for reporting purposes. These agencies are not audited by the Auditor of Public Accounts and are not considered to be state agencies.  
**Do not include Federal subagencies on disbursed/received from non-state tabs. Instead, ensure that all Federal award numbers or other identifying numbers are provided. Federal subagencies are listed on the following websites:**
  - <http://www.nih.gov/icd/>
  - <http://www.nasa.gov/about/sites/index.html>

- Pass-through disbursements to State or non state entities should be reported as expenditures on the appropriate tab(s). **Do not eliminate any pass-through disbursements.** DOA eliminates pass-through transactions at a statewide level.
- Include indirect cost recoveries as expenditures on the SEFA tab.
- Refunds of Federal revenue should **not** be reported on any of the Federal Schedules.
- In those instances where pass-through funds are returned to the original granting entity, the amount should be netted (since the receiving pass-through entity did not expend them). Then, if the original entity subsequently spends those funds, it should be reported on their individual entities SEFA and would be counted in that manner for the Commonwealth federal schedules.
- **Sort and combine grant expenditures and program income expenditures to report the total expenditures for each Catalog of Federal Domestic Assistance (CFDA) number on a single line.**
- Add the value of nonmonetary disbursements to the monetary expenditures to determine the total expenditures for CFDA numbers that have both monetary and nonmonetary disbursements. If the entity has nonmonetary disbursements, contact the individual listed in the **Questions** section on page 3.
- Use the hard copy or on-line ([www.cfda.gov](http://www.cfda.gov)) version of the Catalog to verify the CFDA numbers and program names.
- **Do not use CFDA number 00.000.** Contact the entity that provided the funds to determine the correct and complete CFDA number. At a minimum, each entity is required to identify the Federal grantor agency with the first two digits of the CFDA number (i.e., 10.000, 93.000).

**Note:** **A new column has been added to the DISBURSED TO NONSTATE AND RECEIVED FROM NONSTATE tabs. Entities should report any other identifying numbers assigned by the pass-through entity in this column. Entities should contact the disbursing entity to determine the other identifying number(s) before leaving the column blank. If there are multiple other identifying numbers report each number in this column, separated by a slash (/). Do not use this column to report identifying numbers assigned by the federal grantor agency.**

- **At a minimum, entities must contact the disbursing entity to determine the actual CFDA number before entering amounts without known CFDA numbers. Entities should make every effort to include any contract numbers if applicable. If an unknown CFDA number is used, you must provide a program name and an identifying number associated with the grant. You will be contacted by DOA if an identifier is not supplied. This is a Federal Audit Clearinghouse (FAC) and Uniform Guidance requirement.**

- *The Uniform Administrative Requirements, Cost Principles, and Audit Requirements* Section 200.87 defines research and development “as all research activities, both basic and applied, and all development activities that are performed by a non-profit organization.”
  - Research is a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. Research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development.
  - Development is the systematic use of knowledge gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

**Do not include payments to contractors under legal obligations for the purchase of goods and services on the pass-through schedules.**

The medium through which payment is rendered (IAT, check, EDI, etc.) does not determine whether the relationship is contractor or subrecipient.

A **subrecipient** is “A non-Federal entity that expends Federal awards received from a pass-through entity to carry out a Federal program, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.”

A **contractor** is “a dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a Federal program. These goods or services may be for an organization’s own use or for the use of beneficiaries of the Federal program.”

**SUBRECIPIENT**

- Determines who is eligible to receive Federal financial assistance
- Has its performance measured by meeting the objectives of the Federal program
- Has responsibility for programmatic decision making
- Has responsibility for adherence to applicable Federal program compliance requirements
- Uses the Federal funds to carry out a program of the organization as compared to providing goods or services for a program of the pass-through entity

**CONTRACTOR**

- Provides the goods and services within normal business operations
- Provides similar goods or services to many different purchasers
- Operates in a competitive environment
- Provides goods or services that are ancillary to the operation of the Federal program
- Is not subject to compliance requirements of the Federal program

**DOA strongly encourages communication between entities exchanging Federal pass-through funds.** Such communication ensures consistent reporting and reduces the time required for statewide compilation and audit. Contact Penny Williams at DOA if the entity needs assistance with identifying the Federal contacts at other agencies.

DOA will perform a variance analysis for pass-through funds received and pass-through funds disbursed among State agencies/institutions. DOA will investigate significant variances, and **State agencies/institutions/component units will be required to explain these variances IN WRITING by a due date to be determined in future communications.**

Instructions for preparing the **FLUCTUATION ANALYSIS** tab are in the table below.

<b>Step</b>	<b>Action</b>
1	Click on the <b>FLUCTUATION ANALYSIS</b> tab. This tab will identify fluctuations in the expenditure amounts reported on the current SEFA tab compared to the prior year SEFA tab. The total SEFA dollar variance is provided in the top section of the tab.
2	In the lower portion of the tab, a fluctuation is provided for each major federal agency category between the current and prior year SEFA tab expenditure amounts. For example, 10.xxx represents all expenditures from the SEFA tab within the federal agency, U.S. Department of Agriculture. A “significant variance” is identified, whenever a “YES” is displayed in the “Significant Variance” column and requires that an explanation of the variance be provided. All SEFA amounts for the current and prior year autopopulate in the appropriate federal agency fields (10.XXX, 11.XXX, etc.). <b>You do not need to enter any current or prior year SEFA expenditure amounts.</b>
3	For the Variance explanation on the <b>FLUCTUATION ANALYSIS</b> tab, if "YES" is displayed in “Significant Variance” column, explain any significant increases or decreases in the major federal agency categories. Compare the prior year's SEFA tab to the current year's SEFA tab to identify any individual program differences for the major federal agency where an explanation is required. It will be helpful to have a copy of the prior and current year SEFA tab submissions to identify programs that are new or no longer being used in the current year SEFA tab submission. Include detailed CFDA #s and/or other information to explain any significant changes identified. <b>It is not sufficient to explain that a specific CFDA had significant changes without providing a reason for the change.</b>

**Attachment  
revisions**

If attachment revisions are made subsequent to DOA acknowledgement of receipt and acceptance of the original attachment submission, **resubmit the revised attachment AND complete the Revision Control Log tab in the attachment excel file.**

Enter the revision date, the tab name, row number and column letter revised, and the previous and revised information. Document text changes and numerical changes. Only enter changes for amounts actually keyed. For example, if a non-keyed, calculated total changes as a result of the revision, this does not need to be documented on the Revision Control Log.

If the attachment is revised more than once, do not delete control log revision information from the previous revision. Enter the new revision date and the additional revisions in the rows following the initial revision rows. This log should document all revisions from the initial attachment submission.

Include “**REVISED – date**” in the **subject line** of the submission e-mail as well as in the **entity’s acronym** and the **file name**. Resubmit the revised attachment; and ensure that the **Revision Control Log** tab has been completed.

**Definition**

**Subsequent Events** – Events that occur after the end of the reporting period, but prior to the issuance of the financial statements.

Adjustments to financial statements to reflect this information are required for amounts relating to conditions existing as of June 30, 2017. An example of an adjustment is a loss on a trade receivable, which is confirmed by the bankruptcy of a customer. Disclosure is necessary for events that do not relate to conditions at the balance sheet date, but make the financial statements misleading. This disclosure should indicate the nature of the loss or loss contingency and give an estimate of the amount, or range, of loss or possible loss, or state that such an estimate cannot be made. An example of a subsequent event requiring disclosure would be the issuance of long-term debt after the balance sheet date but before the statements were issued.
