

Comptroller's Directive No. 2-17
Attachment HE-11
Schedule of Cash, Cash Equivalents, and Investments as of June 30

Purpose

This attachment is used to gather uniform financial reporting information for CAFR footnote disclosures required by **GASBS No. 3**, *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*, as amended by **GASBS No. 40**, *Deposits and Investment Risk Disclosures*, and **GASBS No. 59**, *Financial Instruments Omnibus*, **GASBS No. 72**, *Fair Value Measurement and Application*, and **GASBS No. 79**, *Certain External Investment Pools and Pool Participants*. This attachment is a supplement to the Attachment HE-10. This is similar to the prior year's Attachment HE-11.

Recommended

It is recommended that each institution obtain copies of **GASBS No. 3**, **GASBS No. 40**, **GASBS No. 59**, **GASBS No. 31**, **GASBS No. 72**, **GASBS No. 79**, and the Implementation Guide No. 2015-1 and 2016-1 to facilitate a thorough understanding of this attachment. For additional information regarding GASB Statements, refer to the GASB website at www.gasb.org.

Applicable institutions

All institutions that are completing Attachment HE-10 that have the following must complete this attachment:

- Cash, cash equivalents, and investments not held with the Treasurer of Virginia (including restricted amounts); and/or
- SNAP individual portfolios

Due date

Certification

The **Certification** tab requires all preparers and reviewers to answer questions, type their name, and check the applicable boxes on this form. Please note that there should be a segregation of duties; therefore, the preparer and the reviewer should not be the same individual for any tab. By typing a name, the preparer is certifying that all of the questions have been completed and are accurate; the reviewer is certifying that the attachment has been reviewed and is complete and accurate; the preparer and reviewer are certifying they were not the same individual for any tab; and the preparer and reviewer are certifying they have read and understood the instructions for the attachment.

Submission requirements

Contact DOA if the institution has any problems with the files.

After downloading the Excel file, rename the file using the Institution Number-Institution Acronym followed by Attachment HE-11. The Institution Number-Institution Acronym should be the same as shown on the first tab in the attachment. For example, VCCS should rename the Attachment HE-11.xlsx* file as 260-VCCS Attachment HE-11.xlsx*.

Please include the **Institution Number-Institution Acronym** and **Attachment Number** in the **subject line** of the submission e-mail.

Submit the Excel file electronically to Finrept-HE@doa.virginia.gov.

Copy APA via e-mail to APAFinRept@apa.virginia.gov.

Do not submit paper copies of this spreadsheet.

Note*: If the institution has an earlier version of Excel and has problems opening the file, DOA can provide the attachment saved in an earlier version of Excel (.xls).

**Errors
discovered after
submission**

HEIs must ensure that all efforts have been made to submit a complete and accurate Attachment HE-11. However, if the HEI discovers an unexpected error and attachment revisions are made subsequent to DOA acknowledgement of receipt and acceptance of the original attachment submission, **resubmit the revised attachment AND complete the [Revision Control Log](#) tab in the Excel file attachment.**

Enter the revision date, applicable Excel file tab name, row number and column letter revised, and the previous and revised information. Document text changes and numerical changes. Only enter changes for amounts actually keyed. For example, if a non-keyed, calculated total changes as a result of the revision, this does not need to be documented on the Revision Control Log.

If the attachment is revised more than once, do not delete control log revision information from the previous revision. Enter the new revision date and the additional revisions in the rows following the initial revision rows. This log should document all revisions from the initial attachment submission.

Include “**REVISED – date**” in the **subject line** of the submission e-mail as well as in the **file name**. Resubmit the revised attachment; and ensure that the [Revision Control Log](#) tab has been completed.

Each time a revision is submitted the [Certification](#) tab should be updated with new signatures and dates.

Attachment HE-11
Schedule of Cash, Cash Equivalents, and Investments as of June 30

Definitions

Cash – The standard medium of exchange (paper currency) that must be readily available for the payment of current obligations, and it must be free from any contractual restriction that limits its use in satisfying debts.

Cash Equivalents – Instruments or investments of such high liquidity (original maturity of 90 days or less) and low risk that they are virtually as good as cash. Examples are a money market fund, Treasury bill, and monies in the State Non-Arbitrage Program (SNAP) fund*, and the Local Government Investment Pool. Whether an asset is a cash equivalent is determined only once based on the length of the original maturity when the asset is first acquired.

Investments – Securities and other assets that are a) held primarily for the purpose of obtaining income or profit and b) have present service capacity based solely on its ability to generate cash or to be sold to generate cash with an original maturity greater than 90 days. This includes securities, which are transferable financial instruments that evidence ownership or creditorship.

Security – A transferable financial instrument evidencing debt obligation of, or equity ownership in, a common enterprise. The term includes notes, stocks, bonds, debentures, or other forms of negotiable and non-negotiable instruments that evidence indebtedness or ownership.

Note*: SNAP Individual Portfolios may include cash equivalents and/or investments depending on what makes up the portfolio. This is why there is a Restricted SNAP Individual Portfolio – cash equivalent and a Restricted SNAP Individual Portfolio – investment line item.

Note: The definition of fair value was revised by **GASBS No. 72** as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2a	Of the amount reported in Part 1.2, provide the amount that is insured by the federal depository insurance. The FDIC coverage for public units is as follows: 1) Up to \$250,000 for the combined amount of all time and savings accounts (including NOW accounts) and up to \$250,000 for all demand deposit accounts (interest-bearing and non-interest bearing) per in-state financial institution, and 2) Up to \$250,000 for the combined total of all deposit accounts per out-of-state financial institution. Refer to the FDIC website at http://www.fdic.gov/ for FDIC coverage information and definitions.
2b	Of the amount reported in Part 1.2, provide the amount that is covered by the Security for Public Deposits Act (Section 2.2-4400 of the <i>Code of Virginia</i>). The amount covered is usually the amount deposited in a qualified public depository less the amount covered by federal deposit insurance. The most current listing of qualified depositories is available on the Department of Treasury’s website at http://www.trsvirginia.gov/ . An institution can also contact the SPDA accountant at (804) 371-7987 to determine if their chosen financial institution has become a qualified public depository since the last update. Note: If all cash and nonnegotiable CDs not held with the Treasurer of Virginia are included in Part 2a and Part 2b, do not complete Part 2c. If not, the remaining amount should be classified in Part 2c.
2c	If any cash or nonnegotiable CDs NOT held with the Treasurer of Virginia are NOT covered by the FDIC or the Security for Public Deposits Act, provide the amount reported in Part 1.2 for all applicable options below: <ul style="list-style-type: none"> i) Uncollateralized ii) Collateralized with securities held by the pledging financial institution iii) Collateralized with securities held by the pledging financial institution’s trust department or agent but not in the depositor-government’s name. <p>The total of the amounts provided must agree to the total amount in Part 1.2.</p>
2d	Provide an explanation if the amount reported in Part 2a is greater than \$250,000.

6	<p>Are any of the institution's cash equivalents or investments not held with the Treasurer of VA (including restricted amounts) and restricted SNAP Individual Portfolio amounts in debt securities highly sensitive to interest rate changes? Some examples of these include a variable-rate investment with a multiplier, or a variable-rate investment with a coupon that varies inversely with a benchmark index. For further explanations of highly sensitive investments, refer to the Implementation Guide No. 2015-1 and Implementation Guide No. 2016-1 issued by GASB.</p> <p>If the institution marked a “Yes”, please provide an explanation as to why these investments are highly sensitive.</p>
7	<p><u>GASBS No. 40</u> states it is the institution’s responsibility “to update the custodial credit risk disclosure requirements addressing other common risks of the deposits and investments of state and local governments.” With this in mind, please provide a description of any other type of risk to cash, cash equivalents, and investments not covered elsewhere on this attachment.</p>
8	<p>Submit the institution’s investment policy along with this attachment in the e-mail to finrept-HE@doa.virginia.gov. This is the investment policy that will officially be on record with the Department of Accounts. If the institution DOES have cash, cash equivalents, and investments NOT with the Treasurer of Virginia and DOES NOT have an investment policy, please provide an explanation.</p>
9a	<p>For the cash equivalents/investments not held with the Treasurer of Virginia (including restricted amounts) and restricted SNAP Individual Portfolio amounts that are subject to the reporting requirements of the <u>GASBS No. 72</u>, answer whether the items are measured at fair value on a recurring basis. If they are not valued on a recurring basis, then provide the reasons for the nonrecurring fair value measurements. <u>GASBS No. 72</u> paragraph 81 explains recurring and nonrecurring fair value measurement of items.</p>
9b	<p>For cash equivalents/investments not held with the Treasurer of Virginia (including restricted amounts) and restricted SNAP Individual Portfolio amounts that are subject to the reporting requirements of the <u>GASBS No. 72</u> and are reported using the fair value hierarchy (Level 1, Level 2, and Level 3) on the Cash Equiv. & Inv. **Directions for
the “Cash
Equiv. & Inv.
NOT w Tr” tab**

Institutions that have cash equivalents/investments not held with the Treasurer of Virginia (including restricted amounts) and restricted SNAP Individual Portfolio amounts will need to report more detailed information about the risk of their cash equivalents and investments. This spreadsheet requests the necessary information DOA needs to properly report in the CAFR to comply with **GASBS No. 40**.

The **Cash Equiv & Inv. Not w Tr** tab is not password-protected so that institutions may add additional rows when needed without having to contact DOA or may copy and paste information into the sheet from their own records. In adding rows or copying information, care must be taken to preserve the existing spreadsheet layout and column and row labels. If rows are added, please also copy the “TYPE” and “INVESTMENT” descriptions at columns A and B and the formulas at columns N, O, P, V, W, and X.

List cash equivalent or investment by type (Debt or Equity) and investment category:

Sections are provided for common investment types and categories. If a category for a specific investment is not provided, place it in the Other Debt Securities or Other Equities Securities section, as appropriate. Specify the issuer of the investment in the Description field. The individual investment issue must also be identified. For equity investments, the issue is usually identified by a ticker symbol. For debt investments, the issue is identified by a CUSIP number. Institutions must provide ticker symbol or CUSIP number information for all investments. This information is needed in order to satisfy the concentration of credit risk disclosure requirement of **GASBS No. 40**.

Note: Beginning with fiscal year 2017, a new debt security investment category of “Supranational and Non-U.S. Government Bonds and Notes” has been added to the **Cash Equiv & Inv. Not w Tr** tab. Investments in debt securities issued by supranational or Non-U.S. governmental entities should be included under this new investment category, as appropriate.

Note: **Ginnie Mae, EXIMBANK, and SBA** are the only asset-backed securities that should be included with U.S. Treasury and Agency Securities. This is because they are explicitly backed by the U.S. Government. Securities such as those issued by the **Federal National Mortgage Association (FNMA or Fannie Mae), Student Loan Marketing Corporation (Sallie Mae), and the Federal Farm Credit Banks** are **NOT** explicitly backed by the U.S. Government and should not be included in U.S. Treasury and Agency Securities.

Note: Care should be taken when identifying securities as asset-backed. Only securities that are collateralized by other assets, such as mortgage or other consumer loans, should be categorized as asset-backed. Although entities such as Fannie Mae and Freddie Mac (Federal Home Loan Mortgage Corporation or FHLMC) issue many asset-backed securities, they also issue unsecured debt in the form of bonds and notes. These unsecured debt issues should be listed in the “Agency Unsecured Bonds and Notes” section of the **Cash Equiv. & Inv. Not w Tr** tab and **NOT** in the “Asset-Backed Securities” section. If there is doubt as to whether a security is asset-backed, this information can be obtained from a variety of sources, including the investment prospectus, the issuer, credit rating agencies, or the financial institution that processed the purchase transaction. For example, a search of the investment by CUSIP number at the website of the credit rating agency, Moody’s, www.moodys.com, will indicate whether the debt instrument is unsecured or collateralized by some type of asset.

Example: For the cash equivalent or investment type “Common and Preferred Stocks,” the institution would list each issuer such as General Electric Corp. The institution would also list their ticker symbol “GE”. Because it is an equity security, no credit quality rating would need to be given. The institution would then classify the custodial credit risk for this security.

(continued)**

Credit Quality Rating (AAA, BB, NR, etc.):

List the applicable credit quality rating. The credit quality ratings of cash equivalents and investments in debt securities (corporate bonds, corporate notes, etc) as described by nationally recognized statistical rating organizations (rating institutions) must be disclosed.

Obligations of the U.S. government or obligations **explicitly** guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. Repurchase agreements are exempt from credit quality ratings **only** if the underlying security is explicitly guaranteed by the U.S. government. The credit quality ratings of external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities should be disclosed. **If a credit quality disclosure is required and the investment is unrated or a rating of not rated given by any rating agency, the disclosure should indicate that fact that the investment is Not Rated (NR). Under no circumstance, should the rating information for any investment be left blank.**

DOA’s rating drop down list in the **Cash Equiv. & Inv. NOT w Tr** tab provides standardized symbols for commonly used ratings of Standard & Poor’s, Moody’s, and Fitch’s. Institutions may also refer to these three rating agencies’ websites for explanations of the ratings and the standardized rating symbols. Once a rating agency is selected for the investment, the list of rating symbols that may be selected in the next column is restricted to only valid ratings symbols for that rating agency. If there is no rating agency for the investment, “N/A” must be selected for both the rating agency and the rating.

Note: A new completeness check column has been added to the **Cash Equiv. & Inv. NOT w Tr** tab to ensure both rating agency and credit rating columns are completed as applicable. If either rating agency or credit rating column is not completed, an “Answer Required” message will appear in this column.

Interest rate risk (i.e. maturity) of each cash equivalent and investment:

The interest rate risk of debt investments must be disclosed by investment type and amount. DOA has selected the segmented time distribution method as outlined in **GASBS No. 40**. This requirement will require the institutions provide, by amount and issuer, the maturity of their debt investments.

GASBS No. 40 does not require separate disclosure for cash equivalents and investments. Therefore, cash equivalent and investment amounts would be listed in one of the investment column maturities (less than 1 year, 1-5 years, 6-10 years, greater than 10 years) depending on the investment securities that have maturities. Most equity type investments do not have a maturity and their total would only be reported in the “category 3” and/or “uncategorized” columns in the custodial credit risk section.

Custodial credit risk:

Per **GASBS No. 40**, the requirement to disclose cash equivalents and investments as categories 1 and 2 is not necessary. These amounts should be reported in the uncategorized column. If the security, however, meets the following criteria, the security must still be reported as Category 3.

- Uninsured,
- Not registered in the name of the government, and
- Are held by either the counterparty or the counterparty’s trust department or agent

Note: Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. Securities underlying reverse repurchase agreements are not exposed because they are held by the buyer-lender.

List the total custodial credit risk that is considered category 3 and the amount that is uncategorized (remaining amount) for each issuer. For debt securities, the total of these two columns should equal the sum of the interest rate risk columns mentioned above or an error message will appear. Equity securities (common, preferred stock, index funds, equity index and pooled funds, and real estate) will not have a maturity, and their total would only be reported in the custodial credit risk section.

Total Reported Amount:

The reported amount column will automatically total from the amounts listed as category 3 and uncategorized in the custodial credit risk columns of the spreadsheet. **An “Error” message will appear for debt securities if this amount does not agree to the sum of the interest rate risk amounts entered.** The overall total of category 3 and uncategorized cash equivalents and investments must agree to the amount reported at Part 3a in the **Detail** tab of the spreadsheet. If it does not, an “Error” message will appear in the **Detail** tab.

Reported Amounts at Fair Value:

GASBS No. 72, *Fair Value Measurement and Application*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes inputs of valuation techniques used to determine fair value. There are columns added to indicate the level of the fair value hierarchy within which the fair value measurements are categorized (Level 1, Level 2, Level 3), or established using Net Asset Value per Share (or its equivalent) per **GASBS No. 72**.

Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs are inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Not applicable to fair value measurement per GASBS No. 72 column: If the reported amount does not represent the fair value amount measured per **GASBS No. 72**, record the reported amount in the “Not applicable to fair value measurement per GASBS No. 72” column. Examples of some items that do not represent fair value amounts measured per **GASBS No. 72** are the items 1a to 1h listed on the **Recordation** tab.

Fair Value Measurement using (per GASBS No. 72) columns: If the reported amount is the fair value amount measured in accordance with GASBS No. 72 using the fair value hierarchy or established using the net asset value per share (or its equivalent), record the fair value amount in the applicable four GASBS No. 72 fair value measurement columns.

The total of the four “Fair Value Measurement using (per GASBS No. 72)” columns plus the “Not applicable to fair value measurement per GASBS No. 72” column should agree to the corresponding Reported Amount column. If it does not, then an “error” message will appear.

Directions for the “Foreign Currency Inv” tab

List the **fair value** of **each** cash equivalent/investment type subject to foreign exchange risk. Foreign exchange risk is the risk of an investment’s value changing due to changes in currency exchange rates and/or the risk that an investor will have to close out a long or short position in a foreign currency at a loss due to adverse movements in exchange rates.

List the deposit amounts subject to foreign exchange risk in the Deposits column.

The total fair value plus deposit amounts must agree to Part 4 in the **Detail** tab.

For the listed cash equivalent/investment or deposit amounts subject to foreign exchange risk, GASBS No. 40 requires disclosure of investment policy related to foreign currency deposit or investment. Briefly explain institution’s investment policy related to foreign currency deposit or investment. In addition, provide a brief explanation if the institution does not have such investment policy.

**Directions for
the Recordation
tab**

Complete this tab to ensure cash equivalents and investments reported on the Cash Equiv. & Inv. Not w Tr tab are properly reported in accordance with **GASBS No. 31**, as amended by **GASBS No. 59**, **GASBS No. 72**, and **GASBS No. 79**.

Note: **GASBS No. 72** amended the definitions of fair value and investments and provides guidance regarding the measurement and application of fair value.

GASBS No. 79 amendments include necessary criteria for an external investment pool to measure for financial reporting purposes all investments at amortized cost. If the external investment pool meets the criteria to report all investments at amortized cost and reports all investments at amortized cost, the pool's participants must also measure their investment in the external investment pool at amortized cost.
