**Definition**

**Subsequent Events** – Events that occur after the end of the reporting period, but prior to the issuance of the financial statements.

Adjustments to financial statements to reflect this information are required for amounts relating to conditions existing as of June 30, 2018. An example of an adjustment is a loss on a trade receivable, which is confirmed by the bankruptcy of a customer. Disclosure is necessary for events that do not relate to conditions at the balance sheet date, but make the financial statements misleading. This disclosure should indicate the nature of the loss or loss contingency and give an estimate of the amount, or range, of loss or possible loss, or state that such an estimate cannot be made. An example of a subsequent event requiring disclosure would be the issuance of long-term debt after the balance sheet date but before the statements were issued.
