Attachment revisions

If attachment revisions are made subsequent to DOA acknowledgement of receipt and acceptance of the original attachment submission, **resubmit the revised attachment AND complete the Revision Control Log tab (RCL) in the attachment Excel file.**

Enter the revision date, tab name, row number and column letter revised, and the previous and revised information. Document text changes and numerical changes. Only enter changes for amounts actually keyed. For example, if a non-keyed, calculated total changes as a result of the revision, this does not need to be documented on the Revision Control Log.

If the attachment is revised more than once, do not delete control log revision information from the previous revision. Enter the new revision date and the additional revisions in the rows following the initial revision rows. This log should document all revisions from the initial attachment submission.

Note: Each time a revision is submitted, the [Certification](#) tab should be updated with new signatures and dates. Include “**REVISED – date**” in the subject line of the e-mail as well as in the **file name**.
