Example M – Non-VSDP Worker's Comp – First 92 days

Semi-Monthly Salary is $1500, SP 99 CONTBASE is $1500, Workers Comp Daily Indemnity Rate is $100, Timecard Status on H0BID is "Non-Auto"; 10 day pay period. Employee on Non-VSDP Sick Leave Plan has a Worker's Compensation Claim. The claim is within the first 92 days of injury so the agency supplements the Worker's Comp payment to equal the Semi-Monthly Salary.

1. Calculate the amount of the Worker's Comp payment.
   a. $100 multiplied by 10 days = $1000
   b. Use Special Pay 002 (WRK COMP) to pay $1000 on HUE01.
   c. All indicators should be zeros, adjustment indicator is blank.
2. Calculate the amount of the Non VSDP Worker's Comp Supplement.
   a. $1500 - $1000 = $500
   b. Use Special Pay 063 (WC SUPP) to pay $500 on HUE01.
3. Retirement Overrides are not necessary because retirement deductions process on the amount of SP 99 CONTBASE regardless of the amount of pay received. ORP Plan Retirement Deductions (9, 11, 14, 109, 111, and 114) will correctly process on the amount of earnings received for SP 002 and SP 063.
