STATEMENT OF PURPOSE

The *Code of Virginia* requires that the Department of Accounts (DOA) monitor and account for all transactions involving public funds. In order to carry out this mandate, the Department uses a variety of measures, including automated controls, statistical analyses, pre-audits and post-audits, staff studies and reviews of reports issued by the Auditor of Public Accounts. When taken as a whole, these measures provide an important source of information on the degree of agency compliance with Commonwealth accounting and financial management policies, internal controls, procedures, regulations, and best practices.

The Comptroller's *Report on Statewide Compliance* (the *Quarterly Report*) is a summary of measures used by DOA to monitor transactions involving public funds and report findings to the Governor, his Cabinet, and other senior State officials. The *Quarterly Report* uses exception reporting to highlight key findings.

This *Quarterly Report* includes information for the quarter ended December 31, 2017, and comparative FY 2017 data.

COMPLIANCE

Auditor of Public Accounts Reports - Executive Branch and Independent Agencies

Agency audit reports issued by the Auditor of Public Accounts (APA) may contain findings because of noncompliance with state laws and regulations. Agencies may also have internal control findings considered to be control deficiencies. Control deficiencies occur when the design or operation of internal control does not allow management or employees to prevent or detect errors that, in the Auditor’s judgment, could adversely affect the agency’s ability to record, process, summarize, and report financial data consistent with the assertions of management.

Each agency must provide a written response that includes a Corrective Action Workplan (CAW) to the Department of Planning and Budget, the Department of Accounts, and the agency’s Cabinet Secretary when its audit report contains one or more audit findings. Workplans must be submitted within 30 days of receiving the audit report. Commonwealth Accounting Policies and Procedures (CAPP) manual, Topic No. 10205, *Agency Response to APA Audit*, contains instructions and guidance on preparing the workplan.

The APA also reports additional recommendations that can include risk alerts, efficiency issues, or any other improvements that can be made within agency operations. Risk alerts address issues that are beyond the capacity of agency management to implement effective corrective actions. Efficiency issues provide management with recommendations to enhance agency practices, processes or procedures. Additional recommendations are provided following the Audit Findings section.

The APA also issued several Special and Other Reports during the quarter. These reports are listed following the Additional Recommendations section. The full text of these reports is available at www.apa.virginia.gov.

Audit Reports – Quarter Ended December 31, 2017

The APA issued 11 reports covering 25 State Agencies for the Executive Branch and three reports for the Independent Agencies. The last column indicates whether the CAW has been received as of the date of this publication for each agency with audit findings. Note that in some cases, the CAW may not have been received because it is not yet due.

Summary of Prior Audit Findings

The policy governing the Agency Response to APA Audits requires follow-up reports on agency workplans every quarter end until control findings are certified by the agency head as corrected. The status of corrective action information reported by agencies under this policy is summarized in this report.

It is important to note that the finding status reported is self-reported by the agencies and will be subject to subsequent review and audit. Corrective action is considered to be delayed when it has not been completed by the original targeted date. Additional detail for the status of each finding is provided in the subsequent table.

Status of Prior Audit Findings

The policy governing the Agency Response to APA Audits requires follow-up reports on agency workplans every quarter end until control findings are certified by the agency head as corrected. The status of corrective action information reported by agencies under this policy is included in this report.

It is important to note that the status reported is self-reported by the agencies and will be subject to subsequent review and audit.

The first two digits of the finding number are the fiscal year audited in which the finding occurred. The next two digits represent the number of the finding that occurred in the year audited. Multiple finding numbers for one finding represent repeat findings.

Finding 15-02: Obtain Approval to Use End-of-Life Operating Systems

Status: All systems that were identified in the approved exception by VITA/CSRM have been upgraded or decommissioned as of April 24, 2017, and the exception has been closed. The vendor under contract for the only remaining EOL system has developed a timeline for the project to be completed, which is October 31, 2017. This timeline has been provided to VITA/CSRM, but the exception is still in a pending status.

Status Summary: In Progress (Delayed)

Education

Christopher Newport University (CNU)

Audit Year: 2016

Finding 16-01: Improve Database Security

Status: CNU has completed Access control reviews, implemented session limits, and the next steps will be to test additional configuration suggestions from November 2017 status call with the Auditor.

Status Summary: In Progress (Delayed)

Department of Education (DOE)

Audit Year: 2016

Finding 16-05: Improve Information Security Program and IT Governance. This is a Material Weakness.

Status: DOE has completed the initial iteration of the agency's policies and procedures manual. DOE has a gap analysis of the entire information security program and is working with the Vendor to create a plan for mitigation of any deficiencies over a 3-year cycle. DOE will use VITA to perform IT Sensitive System Security Audits.

Status Summary: In Progress (Delayed)

Finding 16-06: Improve Database Security. This is a Material Weakness.

Status: DOE has engaged a vendor to assist with documenting formal policies and procedures for monitoring database activity. DOE has requested database log access from VITA. DOE will use CIS benchmarks to baseline Oracle database configurations.

Status Summary: In Progress (Delayed)

Audit Year: 2015

Finding 15-03: Continue to Improve Information Security Policies and Procedures. **This is a Repeat Finding.**

Status: DOE has completed the initial iteration of the agency's policies and procedures manual. DOE has a gap analysis of the entire information security program and is working with the Vendor to create a plan for mitigation of any deficiencies over a 3-year cycle. DOE will use VITA to perform IT Sensitive System Security Audits.

Status Summary: In Progress (Delayed)

Finding 15-04/14-04: Improve Risk Management and IT Security Audit Plan Document. **This is a Repeat Finding.**

Status: DOE has completed the initial iteration of the agency's policies and procedures manual. DOE has a gap analysis of the entire information security program and is working with the Vendor to create a plan for mitigation of any deficiencies over a 3-year cycle. DOE will use VITA to perform IT Sensitive System Security Audits.

Status Summary: In Progress (Delayed)

George Mason University (GMU)

Audit Year: 2016

Finding 16-01: Improve Database Security

Status: GMU engaged a vendor consulting team specializing in Oracle security to assist staff with developing additional security controls and audit procedures, and to integrate them with the GMU's Security Information and Event Management (SIEM) tool. As of December 19, 2017, the consultants have identified the key high-risk events that will be monitored; SIEM integration will be completed as a follow-on project.

Status Summary: In Progress (Delayed)

Audit Year: 2015

Finding 15-02: Develop and Incorporate Information Transfer Policies, Procedures, and Agreements into the University's Information Security Program

Status: Three agreements remain to be updated, including Equifax (aka Talx), Fidelity, and Hobsons. GMU Counsel's office is working with Purchasing and the respective vendors to update the contractual agreements to include the new data protection language.

Status Summary: In Progress (Delayed)

James Madison University (JMU)

Audit Year: 2016

Finding 16-01: Improve Compliance Over Enrollment Reporting. **This is a Repeat Finding.**

Status: The original fix involved modifying the Degree Verify File to begin including information at the program-level (vs campus-level). Changes were put into place in May 2016 and tested. Unfortunately, the changes had an adverse effect on JMU's enrollment file. JMU has worked with the third party vendor to identify a new fix in which two enrollment files will now be sent, one of which will list only 'G' rows. Both files have been developed and are being sent consistently with no issues noted. A new submission schedule has been developed allowing us to report the graduated program level data before the enrollment program level is sent.

Status Summary: Completed (Delayed)

Finding 16-02: Promptly Return Unclaimed Aid to Department of Education. **This is a Repeat Finding.**

Status: Additional internal testing has been performed with no deficiencies noted. Staff involved with the process from both the University Business Office and Office of Financial Aid are in agreement that the new process in place is working effectively.

Status Summary: Completed (Delayed)

Longwood University (LU)*

Audit Year: 2016

Finding 16-01: Improve Annual Financial Statement Reporting Procedures

Status: No initial corrective action plan received.

Status Summary: In Progress (On Schedule)

Finding 16-02: Develop Procedures for Tracking Time and Effort on Federal Awards

Status: No initial corrective action plan received.

Status Summary: In Progress (On Schedule)

Finding 16-03: Improve Information Security Officer Independence and Risk Acceptance Process

Status: No initial corrective action plan received.

Status Summary: In Progress (On Schedule)

Finding 16-04: Improve Continuity of Operations Planning

Status: No initial corrective action plan received.

Status Summary: In Progress (On Schedule)

Finding 16-05: Improve System Hardening for Server Operating Systems

Status: No initial corrective action plan received.

Status Summary: In Progress (On Schedule)

Audit Year: 2015

Finding 15-02: Improve Virtual Private Network Security

Status: Longwood is making progress to address the weakness communicated in the audit report regarding virtual private network (VPN) controls; however, the corrective action remains in progress. Specifically, Longwood identified additional security equipment that, when implemented, should reduce this risk to a reasonable level and better align VPN controls with industry best practices. Additionally, Longwood made progress in implementing controls to improve VPN software patching and user training; however, the corrective actions are not complete. Longwood's adopted information security standard, ISO 27002, and industry best practices, such as the Special Publication 800-53r4 published by the National Institute for Standards and Technology, require and recommend specific VPN configuration settings to better ensure the adequate protection of remotely accessed information technology resources.

Status Summary: In Progress (On Schedule)

Finding 15-04: Improve Oversight of Third-Party Service Providers

Status: Longwood University is making progress to address the weakness communicated in the audit report related to maintaining oversight of third-party service providers; however, the corrective action remains ongoing. Specifically, Longwood developed a Data Protection Addendum that defines data protection requirements and methods for obtaining assurance. However, Longwood is still working to develop a formal process to identify contracts that require including the Data Protection Addendum. Additionally, Longwood does not have a formal review process for obtaining assurance and approving the technical stipulations of a contract by an authorized and qualified individual, which should be included in the corrective action plan. Longwood must establish requirements in their contractual agreements with service providers to protect sensitive data up to or exceeding the requirements of Longwood's adopted information security standard, ISO 27002 and University policies.

Status Summary: In Progress (On Schedule)

****DOA did not receive an updated Corrective Action Workplan status by the time period required.***

Norfolk State University (NSU)

Audit Year: 2016

Finding 16-01: Improve Information Security, Risk Management and Contingency Programs

Status: Information Technology Services (ITS) has partnered with VITA via memorandum of understanding to assist with auditing and development of the Information Security Program at NSU. NSU continues to work with VITA on NSU's Risk Assessment and Business Impact Analysis programs to be in compliance. NSU's security policies are being reviewed and are 90% complete and NSU has scheduled an audit with VITA in February 2018. The ITS COOP plan and Disaster Recovery Plan have been updated reflecting the current environment. NSU has a plan and process in place to continue monitoring and reviewing the agency's security program on an annual basis.

Status Summary: In Progress (Delayed)

Finding 16-02/15-02: Conduct Information Technology Security Audits on Sensitive Systems

Status: ITS is currently working with VITA Audit Services via memorandum of understanding to perform timely IT security audits of its sensitive systems in accordance with the COV Audit Standards. NSU has built a schedule for the audit plan to start in February 2018 and NSU is currently working with VITA and the various departments to identify NSU's sensitive systems. The culmination of the plan will ensure timely audits of NSU's systems and the ability to detect and mitigate potential weaknesses.

Status Summary: In Progress (Delayed)

Finding 16-03/15-02: Continue to Upgrade or Decommission End-of-Life Technology. **This is a Repeat Finding.**

Status: ITS has coordinated with VITA to implement its Infrastructure Refresh Project. The initial project meeting was held to move forward and begin installation of the new equipment to replace the end-of-life hardware. NSU is awaiting final approval to begin the replacement. The equipment has been configured, tested, and staged in the various building locations. NSU has put in place monitoring software that alert the ITS staff when equipment needs to be replaced. The replacement project will begin mid-January 2018 and be complete the first week of April 2018.

Status Summary: In Progress (Delayed)

Radford University (RU)

Audit Year: 2016

Finding 16-01: Properly Process Return of Title IV Calculations. **This is a Repeat Finding.**

Status: Additional validation was performed on the Spring 2017 term and no exceptions were noted. Operating effectiveness of process put into place as described in initial corrective action plan has been verified.

Status Summary: Completed (Delayed)

Richard Bland College (RBC)

Audit Year: 2016

Finding 16-01/15-01/14-02: Improve Controls over Financial Reporting. **This is a Material Weakness and a Repeat Finding.**

Status: CWM Finance and IT staffs are currently working with RBC staff to improve and document financial reporting procedures and controls.

Status Summary: In Progress (On Schedule)

Finding 16-02/15-03: Comply with the Department of Human Resource Management Policy for Wage Employees. **This is a Repeat Finding.**

Status: Policies and procedures for monitoring and complying with DHRM Policy 2.20 have been developed and implemented.

Status Summary: Completed (On Schedule)

Finding 16-03/15-05: Improve Controls over Small Purchase Charge Cards. **This is a Repeat Finding.**

Status: The development, implementation and documentation of procedures regarding the use of the SPCC are nearly complete. Some training has been provided with the balance occurring during the Spring semester.

Status Summary: In Progress (On Schedule))

Finding 16-04/15-04: Improve Controls over Expenditure Vouchers. **This is a Repeat Finding.**

Status: The development and implementation of procedures for collecting and maintaining expenditure records continued throughout the quarter and will continue during the Spring semester. Documentation of and wider dissemination of the procedures will happen in conjunction with further training.

Status Summary: In Progress (On Schedule)

Finding 16-05/15-06/14-03: Continue to Improve Information Security Program. **This is a Repeat Finding.**

Status: Firewall scanning is done quarterly and a fourth quarter review is conducted by a private IT Security firm. The firewall is configured to scan for anti-viruses, spyware and vulnerabilities. The lone remaining finding is two-factor authentication.

Status Summary: In Progress (On Schedule)

Finding 16-06: Improve System Patch Management

Status: Utilizing the new (in 2016) patching platform and upgrading the primary system has brought RBC into compliance. The Firewall SOP mandates bimonthly upgrades.

Status Summary: Completed (On Schedule)

Finding 16-07: Improve System Logging and Monitoring

Status: RBC IT is working with the College of William and Mary to develop a policy around activity logging and monitoring. As the policy is developed, an effort to obtain funding for additional resources is underway.

Status Summary: In Progress (On Schedule)

Finding 16-08: Improve Database and Network Security

Status: RBC IT is working with the CWM's IT staff developing policies and procedures to address Network Security. RBC is also pursuing additional funding to address the problems.

Status Summary: In Progress (On Schedule)

Finding 16-12: Improve the Employee Termination Process

Status: An employee separation checklist has been developed and implemented. It is issued to the employee's supervisor upon notification by HR of a resignation. In addition, the HR department has begun emailing the IT department when a resignation is received to ensure the technical access is terminated in a timely manner.

Status Summary: Completed (On Schedule)

Finding 16-13: Develop Policies and Procedures to Identify Potential Capital Assets

Status: Progress has been made in tracking and accounting for capital assets particularly IT equipment purchases. Procedures have been developed and implemented.

Status Summary: In Progress (On Schedule)

Audit Year: 2015

Finding 15-02: Improve Controls to Information Systems

Status: RBC has implemented an Access Control Policy that meets standards set forth in the Commonwealth's Information Security Standard SEC-501-09. Procedures in support of the policy have been developed and are being tested (including e-forms).

Status Summary: In Progress (On Schedule)

Southern Virginia Higher Education Center (SVHEC)

Audit Year: 2016

Finding 16-01: Strengthen Fixed Asset Inventory and Related Documentation

Status: Employees from R&D and the Center of Nursing Excellence were assigned to assist with physical inventory. These two departments have the highest dollar amounts of fixed assets. Physical inventory was completed in those two departments in June 2017 and FAACS was updated accordingly. Fiscal Technician has been assigned to assist the Accounting Manager with physical inventory of office equipment. This will be ongoing. IT staff are currently working on tagging new computers. Accounting Manager will review the asset listing provided by IT and update the master list accordingly. SVHEC is continuing to work on an updated agency policy for physical inventory and tagging items.

Status Summary: In Progress (Delayed)

The College of William and Mary in Virginia (CWM)

Audit Year: 2016

Finding 16-01: Improve the Employee Termination Process. **This is a Repeat Finding.**

Status: Human Resources with the assistance of IT developed an electronic workflow process for employees that terminate to ensure timely termination of access to University and State systems and ensure the collection of University property. This new process rolled out campus wide on November 13, 2017. The new on-line process allows supervisors and employees to start the separation process as soon as the employee's separation date is known.

Status Summary: Completed (On Schedule)

Finding 16-02: Improve Database Security Controls. **This is a Partial Repeat Finding.**

Status: Logs are being captured and stored on a secured server. Logs are being monitored for DBA activity. This corrective action will be fully implemented by the estimated completion date of March 31, 2018.

Status Summary: In Progress (On Schedule)

Finding 16-03: Improve Controls over Timesheet Approval. **This is a Partial Repeat Finding.**

Status: Developed and implemented a new Administratively Approved Timesheet Policy where supervisors must respond to payroll notifications by certifying that the time reported for each employee is correct within seven days of receiving notification. If no response in seven days then payroll will follow up with the departmental approver's supervisor.

Status Summary: Completed (On Schedule)

Finding 16-04: Improve Information Technology Change Control

Status: Information Technology has written a change control policy and developed standard procedures and tools to track changes.

Status Summary: Completed (On Schedule)

Finding 16-05: Improve Timeliness of Small Purchase Charge Card Reconciliations

Status: Procurement Services is monitoring sign-off of SPCC transactions. They receive a report on the 20th of the month before the cycle closes and send reminders to cardholders who have not completed sign off. A follow-up email is sent within 10 days if not completed and if after 60 days the cardholder has not completed the required signoff the account is suspended.

Status Summary: Completed (On Schedule)

Audit Year: 2015

Finding 15-02: Improve the Reconciliation of Retirement Contributions. This is a Repeat Finding.

Status: A new procedure for reviewing manual data entry into VNAV has been implemented during this quarter. Control of data integrity related to SNAPSHOT batch autoloads into VNAV has been addressed. A review of data inconsistencies between BANNER and VNAV has been completed. CWM has developed a plan for addressing the reconciliation of prior years' data and have begun implementing it. Additional resources have been identified and assigned to the reconciliation project. Representatives from CWM & VRS continue to meet monthly to evaluate progress on correcting records past the date on which CWM personnel can make changes. While all changes have not been accomplished to date, efforts are continuing into FY18 until the tasks are completed.

Status Summary: In Progress (Delayed)

Finding 15-03: Improve Controls over Retirement Census Data. This is a Repeat Finding. Status:

The revised procedure for certifying that BANNER data identified for monthly upload into VNAV is complete and correct in SNAPSHOT has been implemented. HR/IT continues to evaluate/enhance BANNER reports developed as part of the new procedure. While CWM is able to capture and correct for discrepancies caused during the current period, other older data inconsistencies are undoubtedly causing reconciliation errors that cannot be accounted for during the current period. As cleanup of the data continues these issues will be addressed.

Status Summary: In Progress (Delayed)

University of Mary Washington (UMW)

Audit Year: 2016

Finding 16-01: Improve Controls over Financial System Access

Status: Unnecessary access has been removed from critical access forms.

Status Summary: Completed (On Schedule)

Finding 16-02: Improve Database Security

Status: Corrective action plan has been completed.

Status Summary: Completed (On Schedule)

Finding 16-03: Complete Implementation of the Process for Granting and Restricting Elevated Workstation Privileges

Status: Work continues to remove local elevated privileges from non-authorized users.

Status Summary: In Progress (On Schedule)

Finding 16-04: Improve IT Risk Management and Contingency Process

Status: IT will enhance the disaster recovery failover process including creation of a schedule and document each test. IT has designated one person to manage the IT Systems Inventory and has created a process for performing the annual review.

Status Summary: In Progress (On Schedule)

Finding 16-05: Improve Continuity of Operations Plan Testing

Status: Executive Policy Group training was held which included COOP, CEMP, mitigation planning, incident command and national incident management system. Table top exercise is planned for December 8, 2017.

Status Summary: In Progress (On Schedule)

University of Virginia (UVA/AD)

Audit Year: 2016

Finding 16-02/15-02: Improve Controls for Granting and Restricting Elevated Workstation Privileges

Status: Corrective action plan has been completed.

Status Summary: Completed (Delayed)

Finding 16-03: Improve Security Awareness Training Program

Status: UVA has published guidance that will require annual security training effective March 2018. UVA currently has a manual process in place for enforcing compliance with the existing requirement to complete security training. In enforcing compliance, UVA has taken a risk-based approach with a goal of 100% compliance for users with access to highly-sensitive data. For those users with access to highly sensitive data, as of December 15, 2017, we have 99% compliance with the requirement. By January 5, 2018, we will be at 100% compliance for this population. For those who do not have access to highly sensitive data, UVA currently has 92% compliance. UVA will continue to work with this population to improve compliance.

Status Summary: In Progress (Delayed)

Virginia Commonwealth University (VCU)

Audit Year: 2016

Finding 16-02: Improve Oversight of Information Technology Third-Party Service Providers

Status: VCU developed a set of processes and plan in assessing and reviewing the SOC reports for service providers that are identified as sensitive. VCU Information Security Office in partnership with VCU procurement services has communicated the processes and expectations to VCU fiscal administrators in August 2017. In September 2017, the first round of requests for updated SOC2 or comparable reports are issued to all identified service providers in September 2017. As of September 20, 2017, review of two service providers is complete.

Status Summary: In Progress (Delayed)

Virginia Community College System - Central Office (VCCS-CO)

Audit Year: 2016

Finding 16-01/15-01: Continue to Improve Oversight of Information Technology Third-Party Service Providers. **This is a Repeat Finding.**

Status: The ISO security program update is still scheduled to be completed by April 20, 2018. The final standards for the update were presented at the Fall 2017 Technology Council meeting held September 26, 2017 and September 27, 2017. ACOP has also approved the final standards and the colleges have three months to complete the approved changes.

Status Summary: In Progress (On Schedule)

Finding 16-02: Improve Procedures for Employee Separation

Status: The new Director and HR Analyst have evaluated and refined the off-boarding process. The prior off-boarding checklist with duties and responsibilities for the HR department, the departing employee and their supervisor has been revamped and re-instituted to ensure all equipment, access cards, keys, charge cards, or other State or VCCS property is returned on or before the last day of employment. Training and process documentation has been created to communicate to managers and employees the requirements with regards to the separation process. The off-boarding processes have been refined, and a checklist and clearance form is currently being vetted and tested with departments. They will be refined based on feedback. Once finalized, the additional communications will be shared with supervisors at all levels. The outstanding item is the finalization and communication of the clearance form, which will be in place by January 30, 2018.

Status Summary: In Progress (Delayed)

Finding 16-03: Improve Leave Accounting

Status: On target for completion on February 1, 2018.

Status Summary: In Progress (On Schedule)

Finding 16-04: Perform myVRS Navigator Pre-Reconciliations

Status: The HR department's responsibility, with regard to myVRS Navigator, is to ensure that employee information is entered into the State's Personnel Management Information System (PMIS) timely and accurately and to ensure that information interfaced to the myVRS Navigator system. Previously, certain information was transmitted via an automated interface with PMIS; however, that is no longer operational due to malfunctions resulting from the PMIS system upgrade. If the information does not transfer over via interface, HR is required to manually enter the employee information directly into the system.

The HR department has a new full-time HR Analyst who is knowledgeable, has experience working with the myVRS Navigator system, and with retirement benefits overall. In addition, the System Office HR Director has now created an added level of control involving oversight for this process.

The actual snapshot and reconciliation process in myVRS Navigator is handled by the Payroll department. The HR department is committed to continuing to partner with and assist the Payroll department as requested to fulfill the VCCS' compliance obligations.

HR and Payroll have already communicated on the necessary coordination of the processes and have been working closely to ensure the reporting is accurate and correct. These issues should be resolved at this point with the exception of documenting the process and responsible parties for training purposes.

Status Summary: Completed (On Schedule)

Blue Ridge Community College (BRCC)

Audit Year: 2015

Finding 15-01: Improve Compliance over Enrollment Reporting

Status: Corrective action plan has been completed.

Status Summary: Completed (Delayed)

Central Virginia Community College (CVCC)

Audit Year: 2016

Finding 16-01: Improve Fixed Asset Inventory and Tracking. **This is a Repeat Finding.**

Status: The Business Manager coordinated an inventory count in February 2017 and updated the asset records. The deficiencies noted regarding six assets that did not have the assigned tag affixed and two assets that did not have the proper surplus forms would be corrected by December 2017. CVCC will take a risk based approach to identifying and addressing specific areas of the college that have high dollar items and/or items susceptible of being moved and will test those areas on an ongoing basis. The College plans to create a position to assist with equipment inventory. Until such time that a position is created and filled, the business office will continue to test the acquisition, use, and disposal of inventory to improve record keeping. The additional monitoring of assets will be beneficial to the process of performing a full inventory count every two years.

Status Summary: Completed (On Schedule)

Finding 16-02: Properly Remit Unclaimed Property. **This is a Repeat Finding.**

Status: The Business Manager will notify recipients of outstanding checks in August 2017. Any remaining checks will be reported to the Department of Treasury for the annual report due November 1, 2017. Any remaining unclaimed funds will be remitted in November 2017.

Existing internal controls will be enhanced to provide a more thorough examination of outstanding checks. The Business Manager is responsible for reviewing and approving the monthly bank reconciliations. As part of this process, the Business Manager will review checks that have been outstanding more than 120 days. In maintaining compliance with the Code of Virginia, the Business Manager will notify recipients of outstanding checks and will promptly remit remaining checks that have been outstanding in excess of one year to the Division of Unclaimed Property.

Status Summary: Completed (On Schedule)

Danville Community College (DCC)

Audit Year: 2016

Finding 16-01: Improve Procedures for Employee Separation

Status: A part-time employee separation checklist has been developed to enhance the process of removing terminated part time employees from HR and payroll systems, collecting small purchase charge cards, keys, and tracking the removal of critical system access.

Status Summary: Complete (On Schedule)

John Tyler Community College (JTCC)

Audit Year: 2016

Finding 16-01: Improve Controls over Leave Reporting

Status: JTCC implemented the following procedures to improve controls over Leave Liability reporting: JTCC will ensure that all appropriate employees are included on the Leave Liability report received from the System Office, and will verify the accuracy of the leave reported for every person listed on the Leave Liability report. If needed, manual adjustments will be made to the leave liability report and those changes will be reflected on the VCCS State Schedule 7 to record Accrued Leave Liability.

Status Summary: Completed (On Schedule)

Finding 16-02: Deactivate User Access Promptly Upon Employee Separation

Status: JTCC will conduct quarterly audits of the AIS and SIS systems, in addition to the Annual Access Audit it currently conducts. Each quarter, JTCC's ASA will run internal reports for each system to determine who has access. The ASA will then compare those reports with reports run in PeopleSoft (the system of record). The ASA will then take action on any discrepancies found between the two sources of reports.

JTCC will screen new employees from other state agencies to determine if they currently have access to AIS and/or SIS. During the on-boarding process of a new hire from another state agency, HR will provide the ASA the new employee's employee ID. The ASA will run the new employee's employee ID through PeopleSoft to determine the employee's current access. The ASA will then take appropriate action based upon his findings.

JTCC's ASA will more closely monitor the procedure for deactivating employees in AIS and SIS. The ASA will review the log files of recently deactivated employees every two weeks to make sure their access has actually been revoked in PeopleSoft.

Status Summary: Completed (On Schedule)

Audit Year: 2015

Finding 15-01: Improve Compliance over Enrollment Reporting

Status: JTCC has increased the number of times that the College reports to the NSC each semester from three to five times. JTCC is actively working with faculty to report student non-attendance in a timely fashion, and Administration is taking steps to reduce the number of F grades given to students who should have been withdrawn. The NSC extract generated by PeopleSoft to report enrollment was modified by the VCCS on September 8, 2017, and is being used for Fall 2017 submissions. The VCCS expects to complete modifications to the reporting of unofficial withdrawals and the home institution consortium agreement by the end of December 2017.

Status Summary: In Progress (Delayed)

Northern Virginia Community College (NVCC)

Audit Year: 2016

Finding 16-01: Improve Procedures for Employee Separation

Status: NVCC will review and update exit procedures as outlined on the 105-022 form as necessary. Given the business need to use adjunct faculty and wage employees at various times during the academic year, the college will create a policy to determine the length of time adjunct faculty and wage employees will remain active employees for NOVA. The policy will be approved by the Administrative Council and implemented college wide by October 2017. The manager is the first person to become aware of employees who are leaving the college and are responsible for notifying HR. Currently, managers do not have access to complete the 105-021 on behalf of the employee; only certain HR staff have this capability. Therefore, in an effort to mitigate the problem of delayed terminations, HR will work with our IT department and make the programming needed to change the electronic 105-021 to allow managers access to complete the form on behalf on his/her employees. Managers must complete the form or notify HR immediately after becoming aware of the last day of work for any given employee or ensure the employee completes the form prior to his/her departure. HR will conduct more frequent audits (monthly) to determine if there are adjunct and wage employees in the payroll system who have not been paid. If it is determined that the employee is no longer an active employee, HR will initiate the termination procedure. The manager and their supervisor will be made aware of the actions taken by HR because the manager failed to carry out their supervisory responsibilities in an effort to hold supervisors accountable.

Status Summary: Completed (On Schedule)

Finding 16-02: Ensure Payroll is Properly Authorized

Status: In an effort to ensure payroll is properly authorized, one week before classes are scheduled to begin each semester, HR will distribute a list of adjuncts and ask the academic dean to verify contracts were given to adjuncts and signed copies returned. All contracts must be signed by the adjunct prior to the start of teaching and when there is a change in his or her schedule. The Division must scan the signed contract into the adjunct's personnel file in Image Now. HR will conduct audits each semester to determine if there are contracts missing by reviewing payroll reports to identify adjuncts who were paid on the first adjunct pay date. In addition, sanctions will be imposed for academic deans who permit adjuncts to teach without a completed contract.

Status Summary: Completed (On Schedule)

Virginia Highlands Community College (VHCC)

Audit Year: 2015

Finding 15-02: Improve Documentation of Policies and Procedures

Status: The manual has been updated to reflect changes in some procedures including written procedures for establishing an allowance for doubtful accounts. VHCC's transition to the VCCS Shared Services Center for procure to pay on September 26 2017, created the need for additional refinement to the current policies and procedures manual. The SPCC reconciliation process has not transitioned to SSC but is scheduled to do so in early 2018. This transition will necessitate additional revisions. The estimated completion date has been extended until March 31, 2018.

Status Summary: In Progress (Delayed)

Finding 15-03: Improve Compliance over Enrollment Reporting

Status: Enrollment Management and IT has developed step-by-step instructions for submitting enrollment status, enrollment changes and graduation data and has designated employees responsible for submission and verification in both the National Student Clearinghouse and NSLDS. The Registrar is currently working with IT personnel on accurate submissions for enrollment reporting and reviewing accuracy within NSLDS to ensure that the G line populated correctly. The EM team is meeting monthly to review updated procedures that will ensure accurate compliance enrollment reporting.

Status Summary: In Progress (Delayed)

Virginia Western Community College (VWCC)

Audit Year: 2016

Finding 16-01: Improve Fixed Asset Inventory Oversight

Status: VWCC developed an Equipment Liaison Handbook in Fall 2016 utilizing guidance from the CAPP Manual requirements and the VCCS Fixed Asset Policies.

The College has assigned a full-time employee to perform the role of "Fixed Asset Coordinator." As outlined in the Equipment Liaison Handbook, this new role will ensure that new purchases are recorded in the AIS Fixed Assets Module in a timely manner and that routine fiscal inventories are performed on cycle. A field was also identified in the AIS Fixed Assets Module to designate the respective Equipment Liaison unit responsible for the asset. The Fixed Asset Coordinator held end user training for all identified Equipment Liaisons during Spring 2017 and provided each with a handbook. Each Equipment Liaison along with the Fixed Assets Coordinator performed a subsequent physical inventory in Spring 2017 so that VWCC could further refine the procedures in place.

Compliance Monitoring

Agency Risk Management and Internal Control Standards (ARMICS) Compliance

ARMICS is a comprehensive, risk based, approach to Internal Control. It is based on the Treadway Commission's Committee of Sponsoring Organizations, 1992 publication "Internal Control Framework" and their 2004 work entitled, "Enterprise Risk Management."

ARMICS provides standards and guidance for establishing and assessing agency internal controls in order to more effectively manage risk and maintain accountability. The ARMICS process culminates with an annual certification by the agency head and fiscal officer that they have established, maintained, and evaluated their agencies' internal control framework and tested key controls. DOA conducts periodic Quality Assurance Reviews (QAR) and issues reports on agency ARMICS implementations.

Although an agency's QAR report may state that it "generally" or minimally complies with the ARMICS standards, most reports contain some findings and recommendations, which agencies are strongly encouraged to address.

Non-compliance with ARMICS can take several forms and will be reported, as stated below:

1. Late submission of the annual certification statement (without an extension authorized by DOA) will result in citation in the current year's 9/30 Comptroller's Quarterly Report (QR).
2. Submission of Exhibit 4: Agency Statement, which states that the agency has not complied with ARMICS, will result in continued citation in the QR until the agency complies with the ARMICS standards and submits an ARMICS certification. The status of the agency's submitted Corrective Action Plan (CAP) will be reported until the ARMICS certification has been received.
3. Non-compliance with the processes required for successful completion of ARMICS; therefore, the agency's ARMICS submission was rejected by DOA. This will result in continued citation in the QR until the agency has complied with the ARMICS certification process and has submitted an ARMICS certification or Exhibit 4 (with required CAP).
4. Substantial non-compliance with the processes required for the successful completion of ARMICS (based on a QAR performed by DOA) will result in continued citation in the QR until the agency has complied with ARMICS and has submitted an ARMICS certification. The status of the agency's submitted CAP will be reported until the ARMICS certification has been received.

As of December 31, 2017, the following agencies were not in compliance with the ARMICS process based on their 2017 ARMICS submission:

The following agencies did not comply with ARMICS in FY 2017 and submitted an Exhibit 4 Certification Statement:

Agency Name	Reason for Non-Compliance	Initial Corrective Action Plan Received	Status of Corrective Action
Frontier Culture Museum of Virginia	Exhibit 4 Filed	Yes	Agency states corrective action will be completed by June 30, 2018. No quarterly status update received.
Library of Virginia	Exhibit 4 Filed	Yes	Agency states corrective action will be completed by June 30, 2018. Quarterly status update received.
State Council of Higher Education for Virginia	Exhibit 4 Filed	Yes	Agency states corrective action will be completed by June 30, 2018. Quarterly status update received.
Virginia Racing Commission	Exhibit 4 Filed	Yes	Agency states corrective action will be completed by February 28, 2018. Quarterly status update received.

The following agency Fiscal Year 2017 ARMICS Certifications were rejected by DOA for not complying with ARMICS Minimum Requirements:

Agency Name	Reason for Non-Compliance	ARMICS Certification or Exhibit 4 Received
Department of Game and Inland Fisheries	FY17 ARMICS Certification Rejected	No
State Corporation Commission	FY17 ARMICS Certification Rejected	No

The following agencies were not in compliance with the ARMICS process based on a QAR performed:

Agency Name	Reason for Non-Compliance	Quarterly Corrective Action Plan Received	Status of Corrective Action
Department of Education	Substantial non-compliance with ARMICS process based on a QAR.	Yes	Agency states corrective action will be completed by June 30, 2018.
Library of Virginia	Substantial non-compliance with ARMICS process based on a QAR.	Yes	Agency states corrective action will be completed by June 30, 2018. Quarterly status update received.
State Corporation Commission	Substantial non-compliance with ARMICS process based on a QAR.	Yes	In process. Agency initially stated corrective action would be completed by December 31, 2016. Revised completion date to June 30, 2018. Quarterly status update received.

Decentralized Agencies

DOA performs decentralized record reviews to fulfill its statutory responsibilities under the *Code of Virginia* regarding expenditures by state agencies and institutions. The decentralized record reviews emphasize the impact and effect of the findings on overall compliance with the applicable sections of the Commonwealth Accounting Policies and Procedures Manual.

A formal corrective action plan is required for agencies considered deficient in their compliance responsibilities. DOA will perform a follow-up review to verify the actions taken by the agency adequately addressed the deficiencies noted in the original report.

Although an agency's report may state that it "generally complies with the CAPP Manual" and not require a formal corrective action plan, most reports do contain some findings and recommendations. Agencies are strongly

encouraged to address these findings. Repeat occurrences of the same findings in future reviews may result in the agency having to prepare a formal corrective action plan.

Agencies are evaluated for compliance with the following sections of the Commonwealth Accounting Policies and Procedures CAPP Manual:

- CAPP Topic 20310 - *Expenditures*
- CAPP Topic 20315 - *Prompt Payment*
- CAPP Topic 20330 - *Petty Cash*
- CAPP Topic 20335 - *State Travel Regulations*
- CAPP Topic 20336 - *Agency Travel Processing*
- CAPP Topic 20345 - *Moving and Relocation*
- CAPP Topic 20355 - *Purchasing Charge Card*

Agencies are generally selected each quarter using a systematic risk evaluation of all decentralized agencies. The completed decentralized agency review reports were not finalized for distribution during this quarter.

Compliance Monitoring

Certification of Agency Reconciliation to Cardinal Reports

The Commonwealth’s accounting and reporting system, Cardinal, contains the Commonwealth's official accounting records. Therefore, State accounting policy requires that each agency reconcile its internal accounting records to Cardinal at least monthly and submit the results of the reconciliation via the Certification of Agency Reconciliation to Cardinal.

DOA closely monitors Certification status, evaluates exceptions, and posts correcting entries in Cardinal. Certifications for October and November were due 12/06/2017, and 1/08/2018 respectively.

Compliance with Comptroller's Directives

Annually, all agencies and higher education institutions are required to submit information pursuant to the Comptroller's financial statement directives. The data is integral to the successful completion of the Commonwealth's Comprehensive Annual Financial Report (CAFR). For the FY 2017 reporting period, the following issue was noted.

Comptroller's Directive 2-17, Directive Compliance Guidelines for Higher Education Institutions

Longwood University – failed to submit the financial statement template and other related information promptly.

E-Commerce

Travel Check Charges

In accordance with Chapter 836, 2017 Virginia Acts of Assembly § 4-5.04 f., the Comptroller charges agencies \$5 for travel reimbursement checks issued in lieu of Travel EDI. Agencies are charged for each travel reimbursement check issued to an employee after their second check of the fiscal year. Agencies are expected to take action to enroll applicable employees in the EDI program and thus avoid the fees

altogether. The following table lists agencies that have incurred travel check charges during the second quarter of FY 2018.

Agencies are highly encouraged to sign up board and commission members and other non-employees that receive travel reimbursements on a recurring basis.

Direct Deposit

Effective August 1, 2008, direct deposit was mandated for all new hires. Agencies may mandate direct deposit for all eligible employees at their discretion. Agencies that

did not attain a salaried direct deposit performance rate of at least 98% are included in this report.

Payroll Earnings Notices

Elimination of earnings notices associated with direct deposit is an additional method for increasing the benefits of electronic payments. Employees are currently able to obtain enhanced information online using the web-based Payline system.

In addition to increasing direct deposit participation, agencies and institutions are expected to encourage employees to enroll in Payline and discontinue receipt of centrally printed earnings notices.

Payroll Controls

CIPPS/PMIS Payroll Audit

During the quarter, DOA's automated comparison of payroll (CIPPS) and personnel (PMIS) records examined 397,849 salaried pay transactions and 147,979 wage pay transactions. The comparison is performed following each payday and is designed to identify discrepancies between authorized salary/wage amounts in PMIS and amounts paid in CIPPS. There were 2,909 new exceptions noted statewide during the quarter, with an overall exception rate of 0.05%.

The statewide salaried payroll exception rate was 0.06% and the wage payroll exception rate

was 0.37%. During this quarter, 7 employee paychecks were reduced to recover \$1,140.35 in overpayments.

The largest cause of exceptions is due to the processing of payroll with no corresponding PMIS record found. This can largely be avoided through timely PMIS data entry by agency Human Resource staff. Although segregation of these Human Resource and Payroll functions is an effective internal control, coordination and communication between agency Human Resource and Payroll staffs is essential.

Exception percentages are calculated by dividing the number of exceptions by the number of salaried or wage employees. Agencies are reported below if the percentage of payroll exceptions to salaried or wage

payments exceeds three times the statewide average for the quarter. None of the agencies exceeded the allowed threshold for wage or salaried payments during the quarter ending December 31, 2017.

The following chart compares payroll exceptions as a percentage of salaried payments by quarter for the past two years.

The following chart compares payroll exceptions as a percentage of wage payments by quarter for the past two years.

CIPPS/PMIS Exceptions

Agencies are required to submit explanations and/or reconciliations for the differences identified on the CIPPS/PMIS Unresolved Exceptions Report, within six weeks of

notification. The following table lists those agencies having exceptions that remain unresolved six weeks after receipt of the report.

Payroll Certification

Agencies are required to calculate, verify, and authorize the amount disbursed for each payroll. This responsibility can be met through the timely preparation of agency payrolls, request and review of automated edit reports, and correction of errors prior to requesting actual payroll runs which result in payroll disbursements. This process is referred to as “payroll certification.” Payroll certification serves as a critical internal control to ensure payroll disbursements are accurate and authorized. Agency payroll certifications are monitored centrally to ensure that agencies conduct this important function.

Differences between the amount calculated by the payroll system based on agency input and the amount certified by the agency to be disbursed based on edit reports are identified in automated reports provided to agencies. Agencies are required to submit explanations and/or reconciliations of the differences identified on each report by the end of the day following receipt of the report. Differences result from agency payroll errors, miscalculations, online-certification data entry errors, and inappropriately high volumes of changes following certification. Although differences do not result in undetected incorrect payments, such errors are avoidable

and are not consistent with sound internal control over payroll.

Since timely certification is also essential; authorized and trained staff, as well as telecommunications access and computer terminals, must be available at all times. Reliable back-up plans are necessary should any of these resources be unavailable on a critical payroll processing date due to emergency or other circumstances.

Agencies are required to enter applicable payroll certification requests into the payroll system by **3:30 p.m.** daily to ensure sufficient time is available for central review by DOA staff to validate certification entries, a critical compensating control. Late entries, either initial or correcting, make certification review more difficult or impossible. When a data entry error is detected during the review process, DOA must make corrections to avoid inaccurate payroll disbursements and/or voluminous and costly corrective action.

The table on the following page lists agencies and institutions that have failed to comply with one or more of the requirements for accurate and timely payroll certification.

Payroll Certification Compliance

Columns show the following:

- (a) Variance in dollars for agencies whose certified amounts varied from actual computed amounts if the variance is more than \$20,000 for any payrolls processed during the quarter or the explanation for gross pay difference was submitted late.
- (b) The number of times DOA had to perform the certification function for the agency due to inadequate agency back-up.
- (c) The number of certifications that were submitted or altered later than the daily deadline.
- (d) The number of times DOA made corrections to agency certifications during the quarter.

Health Care Reconciliations

Employee health care fringe benefits costs are covered by a combination of agency-paid and employee-paid premiums. Agencies are required to return a *Certification of Automated Health Care Reconciliations* package to DOA by the close of the month following the month

of coverage. This reconciliation annotates differences between health care eligibility records (BES) and health care premium payments collected through payroll deduction. The following table lists those agencies that did not comply with reporting requirements.

Payroll Statistics

The central payroll system for State government is known as *CIPPS*, the Commonwealth Integrated Payroll Personnel System. CIPPS is one of the largest payroll operations in the Commonwealth, serving 103,599 employees. Payroll services are also provided through eight decentralized higher education institutions.

On average, 88,784 employees were paid each month, of which 66,734 were salaried employees.

Note: The first bar for each month represents salaried employees, and the next bar represents wage employees. Not all active employees are paid on a current basis. Examples would include employees on extended leave without pay and adjunct faculty not teaching during the current semester.

Statistics do not include employees of eight institutions of higher education that are decentralized for payroll processing.

Benefit Participation by CIPPS Agencies

The Commonwealth offers a variety of benefits to state employees, including health care, optional retirement plans, deferred

compensation, and flexible reimbursement programs.

Loans and Advances

Treasury loans may be used to advance funds to a State agency or institution for a designated purpose prior to some form of reimbursement, typically federal or special revenues. They are loans of a temporary nature, approved on the basis of the following conditions:

- **Anticipation of Federal Operating Funds** supports the operations of federal grants and contract programs for which advance funding has been delayed or for those that require expenditure of funds prior to federal reimbursement.

- **Anticipation of Special Revenue Funds** supports the operations of non-general funded activities when collections are spread unevenly throughout the year while expenses require steady funding.
- **Construction** supports capital projects in anticipation of the sale of authorized debt or other financing for such projects.

For the quarter ended December 31, 2017, the following agency failed to repay their Treasury Loan by the established due date.
